

## Sauna Warranty Registration Card – SA7005

1. This sauna has a 1-Year Warranty against defects in materials and workmanship. To receive the warranty, the card must be filled out completely and returned.
2. Please notify Blue Wave Products in advance of any sauna warranty claim prior to shipping the sauna back. Contact our warranty claim department at [warranty@splashnetexpress.com](mailto:warranty@splashnetexpress.com).
3. If the warranty claim department determines that the item must be returned, it must be returned with a receipt showing date of purchase, purchase price, and the dealer from which the sauna was purchased. **No warranty claim will be honored without a receipt.**
4. The freight on the item when returned must be prepaid.
5. Warranty claims will only be resolved with the repair of the current product or shipment of a replacement product. **NO REFUNDS** will be given.
6. Improper installation, misuse or damages resulting from acts of nature will render this warranty null and void.
7. This warranty is in lieu of all other warranties expressed or implied and no responsibility is assumed for future damage due to misuse. This sauna is intended for **INDOOR USE ONLY** – outdoor installation of the sauna **WILL VOID THE WARRANTY**. We are not responsible for damage to the sauna due to improper installation or misuse. Additional actions that will void the warranty are: Use of lacquer or paints, placing sauna on non-approved surface, and outdoor applications.

## Sauna Use Disclaimer

Always consult a health care provider who is knowledgeable in sauna use before using a sauna.

Saunas are powerful devices and monitoring your progress by a professional trained in sauna use is always advisable.

Variables of sauna therapy such as health condition of user, duration of sauna therapy, proper hydration, electrolyte and mineral balance and restoration must be properly considered and heeded before proceeding with sauna therapy. If you are considering sauna therapy, you must first seek the advice of your health care provider about sauna therapy and should also become educated as to the proper use of sauna, preparations for doing sauna therapy, as well as fully understanding the risks involved in sauna therapy.

Blue Wave products are not registered with the United States Food and Drug Administration (FDA) as a Medical Devices. Consult your licensed health care provider to see if our saunas are right for you. Blue Wave products and/or its partners, associates, etc. are not liable for the use of Blue Wave products nor any incidental or consequential damages. Under no circumstances shall Blue Wave products or any of its representatives be held liable for injury to any persons or damage to any property. Some states do not allow exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

The FDA requires us to inform you that this product is not intended to diagnose or treat any disease or medical problem and is not a substitute for regular medical care from a licensed health care provider.

## Cleaning and Storage

Use soft cloth or towel to clean the blanket.

**Do not** use alcohol to clean the blanket (this can damage the PVC)

**Do not** use strong corrosive cleaner to clean the blanket.

Please ensure the blanket has cooled down completely before storing it.

**Do not** store the blanket in direct sunlight.

**Do not** put the blanket in water, flammable, explosive, chemical solutions or humid place.

**Do not** place heavy objects on the blanket.

**Do not** submerge this blanket in water.

## Question and Answer

**Question:** Why does the control box show “EE” in the temperature window?

**Answer:** Please check the 3 wire connections from blanket to control box to ensure tight connection.

**Question:** Why does the temperature not rise after I press “START”?

**Answer:** Please ensure that you have selected the zone before clicking “start”. A zone is selected when the small red dot appears.

**Question:** Why does the control box not start?

**Answer:** Please remove the fuse at the plug-in on the back of the control box and inspect. The fuse may have blown.

2. Power Supply Socket
3. Blanket Connection Sockets  
*(Connect three wires in order head to toe from top to bottom)*

4. Start
5. Power
6. Timer
7. Temperature
8. Select

## Instruction for Use

Place the Infrared Sauna Wrap on a flat surface (ie: bed or floor).

Put the control box on a flat surface (ie: table). Connect the three wires from the sauna blanket to the back of the control box. Plugging in wire closest to head in top plug and working down in order. Please ensure they are connected tightly (loose connection can cause “EE” error).

Then connect the power cord to the main power socket.

Turn the main power switch on at the back of the control box. You should hear a beeping sound and the screen will flash. Please remain patient as it takes a moment for the control box to load.

Press the “**POWER**” button to activate the control box.

Press “**TIME**” to set the time from 5-60 min. For each time pressed, the time will increase or decrease by 5 minutes. Recommended time is 30 minutes.

Press “**TEMPERATURE**” to set the temperature. The temperature will increase or decrease by 1° Centigrade for each time pressed. Recommended temperature is 60 degrees.

Then press the “**SELECT**” keys to choose the zone. A small red dot in the bottom right corner of the temperature display indicates that the zone has been selected.

Press “**START**” key. The small dots in the bottom right of the selected zones will begin to flash and temperatures will begin to adjust, showing that heating has started. When the heating timer counts down to “0”, a beep will sound 5 seconds, indicating that the session is over and the heating has finished.

Once you have completed your session, please turn off the power on the front of the control box, and then turn off the power switch at the back of the control box. Also, please unplug the power cord from the control box. **IMPORTANT: Please do not remove the three wires from the blanket that connect to the control box until the control has been powered OFF. Failure to follow this important reminder could damage your blanket!**

If you need to stop the session at any time, just press the “**START**” key.

If sweat is on the inside of the blanket, please use a towel to dry it off, and allow the blanket to dry by laying it on a flat bed or table for approximately 30 minutes.

Fold the blanket and store it in a dry place.

If you want to use it more than one time in a day, wipe surface of the blanket with a towel and wait at least one (1) hour between sessions.

## Caution & Safety Warnings

**\*\*IMPORTANT\*\***

**NEVER LEAVE THE BLANKET UNATTENDED WHILE IN USE.**

**Do not** put the control box on the blanket. Please keep the control box on a table or floor, away from the blanket.

**Do not** turn off the power when a session is in progress.

**Do not** unplug the blanket from the control box while the blanket is heating.

**Do not** wear metal jewelry or other metal items when using the blanket.

**Do not** put the blanket on a leather bed. Please put a cotton towel between blanket and bed. The high temperatures can cause the PVC and leather to fuse together.

**Do not** use corrosive cleaning products to clean the blanket.

**Do not** let the blanket heat without a person inside the blanket. This can damage the blanket.

**Do not** fold the blanket when it is still hot. Allow the blanket to cool completely before storing.

**Do not** put the blanket in direct sunlight. When storing, store the blanket in a cool, dark place.

Please keep the inside of the blanket clean and dry.

Remove the power cord from the control box when not in use.

**Do not** allow children to use this blanket.
