

# Liqu-A-Klor™/MC

# T20

## Liquid-Bactericide Disinfectant and Sanitizer

An effective liquid bactericide disinfectant and sanitizer for food contact equipment and utensils.

### Features & Benefits

- An effective liquid bactericide disinfectant and sanitizer for food contact equipment and utensils
- Suitable for use as a sanitizer for many bar glass machine operations
- Final rinse sanitizer for low temperature machines
- Available in 1 gal. containers for easy operator handling, as well as 5 gal. pail
- Can also be used as a produce wash

### Applications

- Manual chlorine sanitizer for compartment sinks, buckets and spray bottle applications

# Liqu-A-Klor<sup>TM/MC</sup>

## Liquid-Bactericide Disinfectant and Sanitizer

Liqu-A-Klor<sup>TM/MC</sup> liquid-bactericide disinfectant and sanitizer is a hypochlorite solution. It is effective for the final sanitizing rinse of previously cleaned and rinsed food contact equipment and utensils such as: low temperature machines, compartment sinks, bar glass machines, fruit and vegetable washing, commercial laundry sanitizer and disinfection of drinking water (emergency/public individual systems). Also for use as organic produce wash.

### Use Instructions

- Remove gross soil
- Apply to nonporous surfaces
- Allow to remain wet for two minutes
- Do not rinse with water after treatment
- Let air dry

**Note:** Chlorine is an approved organic contact material (at 4 ppm maximum). Using Liqu-A-Klor<sup>TM/MC</sup> at 50 ppm and rinsing with potable water will reduce the chlorine concentration to below the required level of 4 ppm. Any residual chlorine will readily gas-off as the surface dries.

Technical data	Liqu-A-Klor <sup>TM/MC</sup> Liquid-Bactericide Disinfectant and Sanitizer
Certifications	Kosher; Halal
EPA Reg. No.	875-190
Color/Form	Clear yellow, liquid
pH	12.2
Scent	Chlorine
Shelf Life	1 Year
