

Age 6+

**Bonus sticker!**  
Remove and use the sticker from the packaging.

- Helpful Tips:**
- Cover your work surface with a large towel. This will help contain the gems in case they spill.
  - Use a large resealable bag for storing your components.

Clear your space so you have plenty of room to work. Spread out your colorful gem bags, gem tray, stylus and sticky putty.

Gem Placement Guide

## Prep your Gems

Find the sealed ends of each gem bag. Carefully peel it open, pour some into your gem tray then reseal the bag. Leave room in your tray. This will make it easier to pick up the gems with your stylus.

**Helpful Tip:** Upside down gems can be flipped over by shaking the tray side to side, or using your fingers.

## Start with Stickers

The little sticky dots will guide gem placement. Choose colors that match the designs or pick different gem colors. It's up to you.

### Helpful Tips:

- To work on just one sticker at a time, separate them with scissors before you remove and discard the clear protective cover.
- If you don't have scissors handy, peel back the protective cover a little at a time as you work.

**1** Peel the clear film off the putty then press & twist the tip of the stylus into the putty to fill it.

**2** Peel off the clear protective cover to reveal the adhesive.

**3** Pick up gems with the tip of the putty filled stylus. *(When it stops working, refill it with more putty.)*

**4** Place the gems on the adhesive dots. When finished, press down on the gems so they stay in place.

## Time for Suncatchers

Diamond paint them your way with the remaining gems. If you run out of your favorite color, have fun blending the gems in a creative way.

If you'd like help with gem placement, use the guide printed on the back. Place your suncatcher on top and follow the dots. Have fun!

**There are two way to display:** Insert a stand into the slit at the bottom of the suncatchers, or hang them on a window or mirror using the suction cup hooks.

**Pro Tip:** For best results, wet the suction cup before using.

Remove protective film from stands.
