

VOLCORE™

PROTECT YOURSELF. PROTECT YOUR HARNESS.

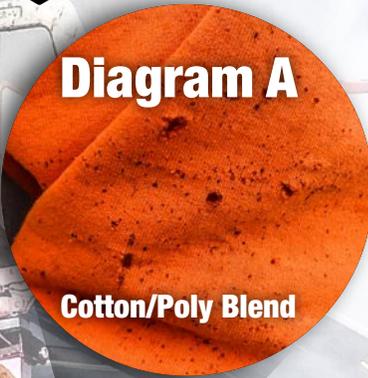

Diagram A

Cotton/Poly Blend

Diagram B

AR-FR Rated Vest

When a \$300+ harness burns because of welding slag, personal safety becomes an issue.

The Radwear® VOLCORE™ AR-FR Rated Vest can be your first line of defense.

Diagrams A and B show the difference in flame resistance. The AR-FR Rated vest reduces the odds of charring and burned pinholes to your inner layer or harness.

Protecting yourself is a priority. Protecting your equipment is essential to jobsite safety.
