

# Dueling Decimals

A game for 2 players

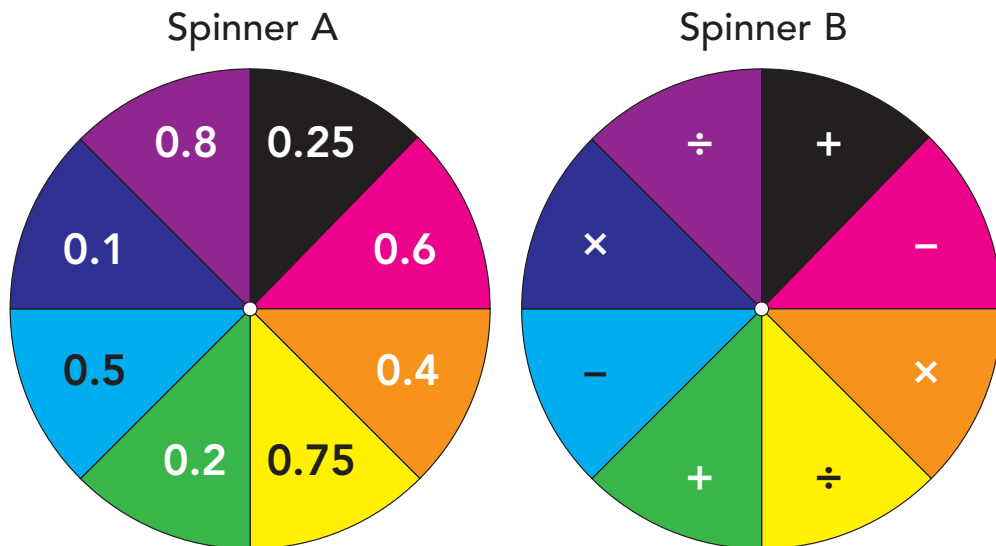

7  
☆☆☆

## Materials

## What to Do

1. Player 1 spins Spinner A twice and records the decimals.

## Show Your Work

2. Player 1 spins Spinner B to see whether to add, subtract, multiply, or divide the 2 decimals.
3. Player 1 performs the spun operation with the 2 decimals. Player 2 checks Player 1's answer. Player 1 earns 5 points if the answer is correct.
4. Player 2 takes a turn, repeating Steps 1–3.
5. The first player to score 50 points wins the game.

*How can you subtract 0.08 from 0.1? Explain.*

Add, subtract, multiply, and divide decimals.
