

PH	1% 2.0 - 2.6
Non-Volatile Matter	14.5 - 15.1%

Safety

See safety datasheet (if applicable) and product label for safety information, handling and proper use.

Directions for Use

Dispense SOUR / SOFT 70 directly from its shipping container using an automatic liquid dispensing system. The authorized representative servicing your facility will establish a program suitable for your individual requirements. Do not use with ammonia or bleaches.

Sour/Soft 70 is a balanced blend of fabric softening agents and a laundry sour. Softened linens have a softer, smoother feel; towels and diapers are fluffier; clothes have fewer wrinkles requiring less ironing. It also neutralizes the alkaline detergent residues and water hardness minerals that cause iron staining and graying of fabric. Sour/Soft 70 has proven to be very economical to use in all institutional laundries. For institutional laundry use only. Do not use with ammonia or bleaches.

Features & Benefits

- Controls pH.
- Iron Control.
- Softens Fabrics.
- Eliminates Static.

Item Number & Unit of Measure

Item Number	HIL0353106
Unit of Measure	1 gal Bottle

Specifications

Color	Pink
Appearance	Opaque
Fragrance	Downy Sunrise
Formula Type	Liquid
Requires Dispenser	Yes
Dilution Ratio	0.75-1.5 OZ/35#
