

Mantis[®] Sirius

Insect Light Trap System

Mantis[®] Sirius is a sophisticated new, fully discreet insect light trap unit designed for front-of-house use or anywhere flying insect management needs to be kept out of public view. With its clean curves and dual wall mounting options, it fits seamlessly into any restaurant, café or hotel. Features unique PestWest Quantum Lead-Free 2 x 14w T5 UVA lamps powered by an electronic ballast to deliver professional and environmentally responsible flying insect management.

Features & Benefits

- Discreet and elegant UV sticky trap
- Superior energy savings by 18% or more
- High frequency electronic ballast: significantly reduces energy consumption, optimum UVA emission and flicker-free lamp
- Can be mounted horizontally or vertically
- Less glass content and lead free to reduce the environmental footprint
- FDA & USDA compliant, and 3 year manufacturer warranty
- Insects are contained within the system for a clean catch
- Silent, with no chemicals or smelly attractants
- A key component in any IPM or LEED program

Applications

- Catches all sizes of flying insects
- Sleek and Stylish, designed for front-of-house use
- Also ideal for food preparation and other sensitive areas

Mantis® Sirius

Insect Light Trap System

Mantis® Sirius provides optimally energy efficient Quantum T5 lamp technology. A state of the art, energy efficient (110v), high frequency system designed for all public areas. The Sirius is handcrafted with an electronic ballast, so no starters are required. The solid state ballast powers two T5 (5/8") Quantum shatter resistant lamps that dramatically increase performance and reliability at a decreased cost. Place anywhere flying insect activity is found. Fast & easy installation and no tool maintenance make the Sirius the professionals choice in discretion. When you're serious about flying insect management, the Mantis® Sirius is the solution. Available in White.
