

COMPACT PRO
 The COMPACT PRO is a compact, portable, and easy-to-use device for measuring the concentration of various gases in the atmosphere. It is designed for use in a wide range of applications, from environmental monitoring to industrial safety. The device features a high-precision sensor and a user-friendly interface, making it ideal for both professional and amateur users. It is available in several configurations, including a basic model and a more advanced model with additional features. The COMPACT PRO is a reliable and accurate tool for gas measurement, providing valuable data for a variety of applications.

Model	Gas	Range	Accuracy
COMPACT PRO	O ₂	0-20%	±0.1%
COMPACT PRO	CO ₂	0-1000 ppm	±10 ppm
COMPACT PRO	CO	0-100 ppm	±1 ppm
COMPACT PRO	CH ₄	0-100 ppm	±1 ppm
COMPACT PRO	H ₂	0-100 ppm	±1 ppm
COMPACT PRO	NO ₂	0-100 ppm	±1 ppm
COMPACT PRO	SO ₂	0-100 ppm	±1 ppm
COMPACT PRO	NO	0-100 ppm	±1 ppm
COMPACT PRO	PM ₁₀	0-100 µg/m ³	±1 µg/m ³
COMPACT PRO	PM _{2.5}	0-100 µg/m ³	±1 µg/m ³
