

Shiner

Spray Buff

Shiner Spray Buff is formulated for use with conventional maintenance systems and provides that “just-finished” shine.

Features & Benefits

- Delivers state-of-the-art performance and cost-efficiency
- Removes scuffs, scratches and black heel marks
- Leaves floor with high gloss and pleasant fragrance
- One gallon covers 25,000 - 30,000 square feet

Applications

- For use on all Diversey floor finishes except for Carefree® Matte
- For best results, use with conventional maintenance systems

Use Instructions

Traditional Spray Buffing

Note: Floors should have a minimum of two coats of floor finish prior to spray buffing

- Prepare floor by dust mopping, damp mopping or autoscrubbing as required
- Pour undiluted product into trigger spray bottle
- Spray a fine mist on the floor. Do not over wet.
- Buff immediately with a spray buff machine and pad
- For best results, flip or change pad frequently

Spray Blazing (Ultra High Speed Spray Buffing)

Note: Floors should have a minimum of two coats of floor finish prior to spray blazing

- Damp mop or auto scrub floor
- Mix product with water at a 1:1 dilution in spray blazing bottle
- Attach a UHS rated pad to a UHS machine (min. speed 1500 rpm)
- Start burnisher and proceed at an average pace. Spray a fine mist on the floor every five steps (approx. 12–15 ft. / 4–5 m).
- For best results, flip or change pad frequently

Note: Floors can be slippery when wet or contaminated with foreign materials. Promptly clean up spills and foreign materials.

Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at www.diversey.com or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
