

CALI[®] turf

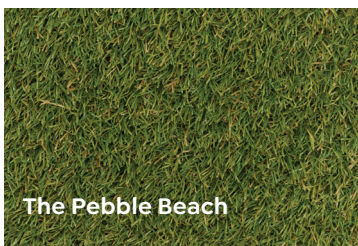

CALI turf The Torrey Pines

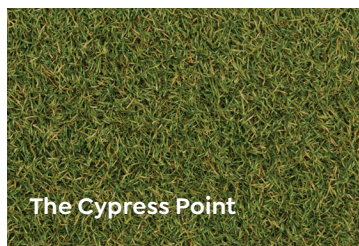

You'll never miss the grass.

Picture a lush, green lawn that begs for outdoor fun -- without the water, mowing, allergies, or mess. CALI offers the most realistic artificial turf, designed with every innovation so it both looks amazing and performs like a dream. A thick blend of fibers and colors create a natural carpet that's comfortable underfoot for every member of the family (human and otherwise). A smarter design cuts down on upkeep so you can spend more time enjoying your yard. Made without harmful chemicals, CALI turf has been tested and proven safe for all.

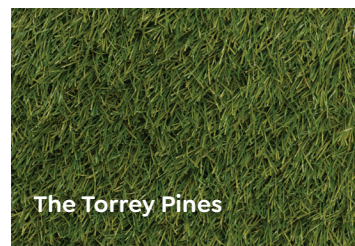

Available Colors

The Pebble Beach

The Cypress Point

The Torrey Pines

CALI turf The Cypress Point

Natural Beauty

A hyper realistic design combines fibers of various heights, texture, thickness and direction in four different colors to create a lawn that looks and feels luxurious.

Better Blades

Just like real grass, blades feature a V-shape construction, allowing them to stand up longer. Micro veins run the length of each stalk to reduce sun reflection and prevent a plastic appearance.

Pet-Friendly

Highly resilient and easy to clean, turf is designed with increased drainage and can be paired with Envirofill with Microban to help prevent pet odor.

100% Recyclable

Whereas most artificial turfs have a non-recyclable nylon backing, every part of CALI turf (the grass blades and the backing) can be recycled.

Color Family	Field Green + Olive Green + Beige + Green
Pile Height	The Pebble Beach: 2" The Torrey Pines: 2" The Cypress Point: 1-3/8"
Width	13'
Length	82' Roll, Custom Lengths Available
Item Material	The Pebble Beach: PE 9-threads semi-straight in V-shape + PP 8-threads micro curled + PE 8-threads micro curled, Monofilament The Torrey Pines: 8-threads semi-straight in V-shape + PP 8-threads micro curled, Monofilament The Cypress Point: PE 9-threads semi-straight + PE 8-threads micro curled, Monofilament
Face Weight	The Pebble Beach: 59 ounces/square yard The Torrey Pines: 38 ounces/square yard The Cypress Point: 28 ounces/square yard
Total Weight	The Pebble Beach: 76 ounces/square yard The Torrey Pines: 55 ounces/square yard The Cypress Point: 45 ounces/square yard
Fiber Quality	The Pebble Beach: 19,200 dTex, 25 ply The Torrey Pines: 13,200 dTex, 16 ply The Cypress Point: 13,100 dTex, 17 ply
Backing	Reinforced woven double backing with UV stabilizer
Backing Weight	8 ounces/square yard
Coating	Polypropylene, 9 ounces/square yard
