

QUESTION 2 (5 MARKS)

Figure 1 shows the experimental setup for the experiment.

Figure 2 shows the graph of the data obtained from the experiment.

Figure 3 shows the graph of the data obtained from the experiment.

Figure 4 shows the graph of the data obtained from the experiment.

Figure 5 shows the graph of the data obtained from the experiment.

Figure 6 shows the graph of the data obtained from the experiment.

Figure 7 shows the graph of the data obtained from the experiment.

Figure 8 shows the graph of the data obtained from the experiment.

Figure 9 shows the graph of the data obtained from the experiment.

Figure 10 shows the graph of the data obtained from the experiment.

Figure 11 shows the graph of the data obtained from the experiment.

Figure 12 shows the graph of the data obtained from the experiment.

Figure 13 shows the graph of the data obtained from the experiment.

Figure 14 shows the graph of the data obtained from the experiment.

Figure 15 shows the graph of the data obtained from the experiment.

Figure 16 shows the graph of the data obtained from the experiment.

Figure 17 shows the graph of the data obtained from the experiment.

Figure 18 shows the graph of the data obtained from the experiment.

Figure 19 shows the graph of the data obtained from the experiment.

Figure 20 shows the graph of the data obtained from the experiment.

Figure 21 shows the graph of the data obtained from the experiment.

Figure 22 shows the graph of the data obtained from the experiment.

Figure 23 shows the graph of the data obtained from the experiment.

Figure 24 shows the graph of the data obtained from the experiment.

Figure 25 shows the graph of the data obtained from the experiment.

Figure 26 shows the graph of the data obtained from the experiment.

Figure 27 shows the graph of the data obtained from the experiment.

Figure 1: Experimental setup for measuring the speed of sound.
