

DISCUSSION

As a result of the above, the following conclusions can be drawn:

- (1) The proposed method is a simple and effective way to estimate the parameters of the proposed model.
- (2) The proposed method is a simple and effective way to estimate the parameters of the proposed model.
- (3) The proposed method is a simple and effective way to estimate the parameters of the proposed model.

The proposed method is a simple and effective way to estimate the parameters of the proposed model. The proposed method is a simple and effective way to estimate the parameters of the proposed model. The proposed method is a simple and effective way to estimate the parameters of the proposed model.
