

TREAD LITE[®] POWER STEP

Enhanced Performance

RVers asked for a better power step and our Research & Development team took the challenge and exceeded expectations again with the Tread Lite Power Step. We collected customer feedback and conducted extensive research and testing to develop a new premium power step with newly upgraded mechanics, featuring:

- Lightweight, heavy-duty motor
- Weatherproof components
- Stylish aluminum treads
- LED lighting
- Smoother operation
- Firmer, more stable step

Lighter — Quicker — Stronger

part no.	description
353542	24" Single w/Switch, Harness
353543	24" Double w/Switch, Harness
353544	24" Triple w/Switch, Harness
353620	30" Single w/Switch, Harness
353621	30" Double w/Switch, Harness

Quick Facts

- 8.5-inch step rise & tread depth
- LED lighting improves visibility at night
- Anti-slip coated step surface for sure footing
- Anodized step links available in various colors
- Heavy-duty motor provides smoother operation
- 13 pounds lighter on average than the competition
- Rigorously tested to provide more efficient operation
- Step automatically retracts when vehicle ignition is triggered
- Hold cycle switch allows step to remain extended at campsite
- Safety shut off diagnostics sense obstruction, preventing damage
- Anodized aluminum links and step treads hold up better against the elements
