

18V UNIVERSAL

AWNING HARDWARE KIT

THE DIYER'S AWNING DREAM COME TRUE

Are you an off-the-grid boondocker looking for a power awning solution that doesn't drain your RV's power supply? Or a DIYer wanting to save time and money installing their own power awning kit? Look no further than the Solera 18V Universal Awning Hardware Kit by Lippert. This RV awning system gives you the automation you want without fussing around with a major installation project or draining your rig's power. And it's compatible with most leading awning brands – including Dometic® and Carefree™, so adding the Solera® 18V Universal Awning Hardware Kit to your RV is a breeze.

**Whenever, wherever, we
make your experience better.**

THE DIYER'S AWNING DREAM COME TRUE

Power operation

Use either the nested arm controller or traditional switches to extend and retract your 5th wheel RV or travel trailer's awning

Rechargeable battery

You can operate your awning 22 to 25 times before needing to recharge your battery with the included 110V charging kit

Do-it-yourself installation

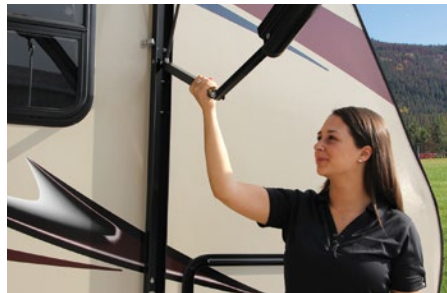

Unlike most power awnings, this kit doesn't require internal wiring for installation, saving you time and money upgrading your awning

Universal fit*

Solera Universal 18V Power Hardware is compatible with Solera awnings and other leading awning brands on the market*

Easy pitch adjustment

With this 18V power awning system, you can quickly and easily adjust your RV awnings for adequate shade, no matter what time of day it is

Additional Features

- Universal fit with rechargeable battery operation
- Color options: black or white
- Waterproof switch offers easy, push-button operation
- Saves you time extending and retracting your awning manually
- Includes 110V charging kit
- Kit does not include awning roller assembly or fabric
