Important:

- **Read these Assembly and Use instructions carefully.**
 - Do not use the ladder for any other purpose - it is only for use with an above ground pool.
 - Maximum authorized weight: 330lbs (150 kg.)
 - To help prevent unauthorized entry to the pool, remove the Safety Steps when not in use (see cover illustrations).
 - Check the condition of the ladder components before assembly, before and during each use.
 - In winter, we recommend removing, cleaning, and drying the ladder to keep it in working condition.
 - Failure to comply with maintenance rules may pose a serious risk to health.
 - Do not swim around or behind the ladder.
 - Only one person at a time should climb up the ladder.
 - Do not dive or jump from the ladder.
 - Do not sit on the ladder.
 - Do not bounce or jump on the ladder.
 - Do not allow children to use the ladder unless under close competent supervision.
 - Place the ladder on solid, level ground.
 - Position the provided safety sticker on a step of the ladder so that it is clearly visible.
 - Keep these instructions for information and future reference.
-

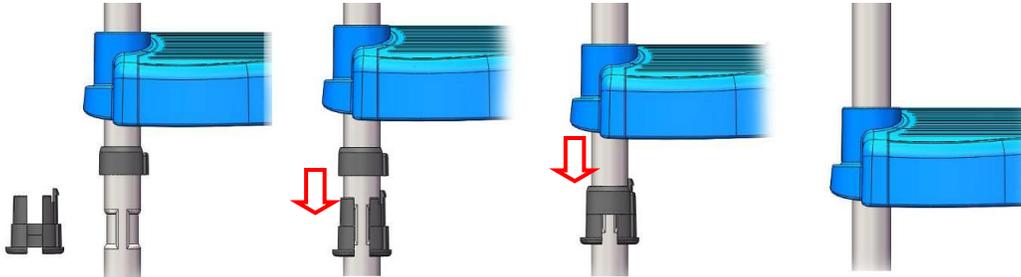

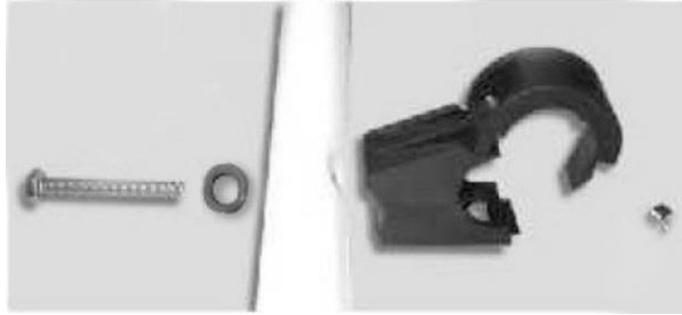

This ladder is easy to install and can be assembled by one adult in about 1 HOUR.

The following tools are needed:

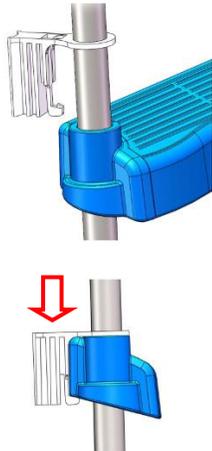

- Medium Flat head screwdriver
- 10mm Wrench or Socket

ASSEMBLY DETAILS

Refer back to these during assembly, as instructed.

ASSEMBLY DETAIL A – Detail Diagrams of Step/Platform installation

ASSEMBLY DETAIL B – Detail Diagrams of Bushing installation

ASSEMBLY DETAIL C – Detail Diagram of Bridge Handrail assembly.

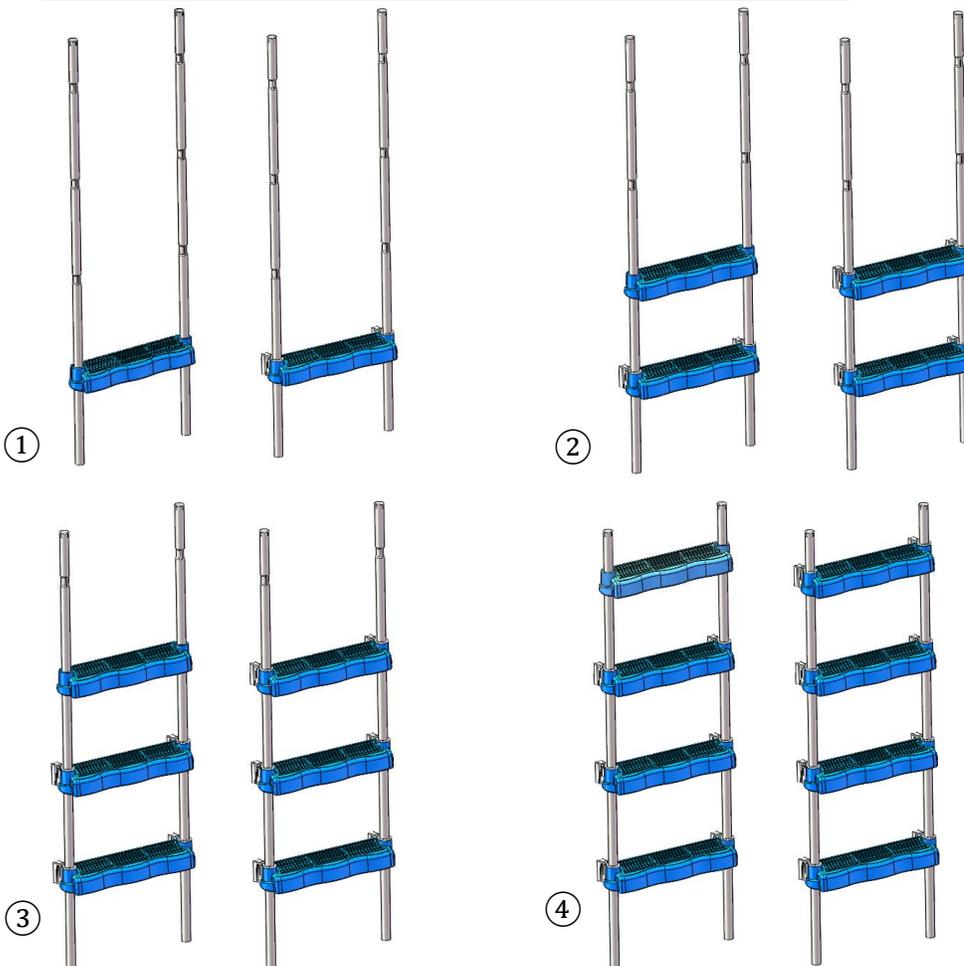

ASSEMBLY DETAIL D – Assembly of Safety Clips to the Handrail

Step 1: Install the Inside Steps

Follow **ASSEMBLY DETAIL A** to install the first step through the fourth step of inner ladder.
Note: The end with the White Plug should face **UPWARD**.

Step 2: Install the Removable Safety Steps

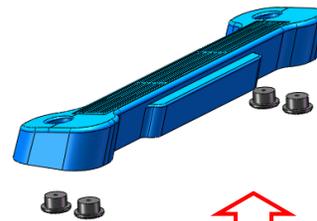

Follow **ASSEMBLY DETAIL A** to install the Steps and then Follow **ASSEMBLY DETAIL B** to install two bushings on as shown in sub-steps ① through ④, above. For easier installation, remove the White Plugs first and when the bushings are installed, re-install the white plug.
Note: The end with White Plug should face **UPWARD**.

Step 3: Assemble the Platform

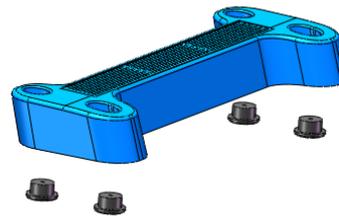

Follow **ASSEMBLY DETAIL A** to install the platform to the connection bridge.

Step 4: Ladder Structure Assembly

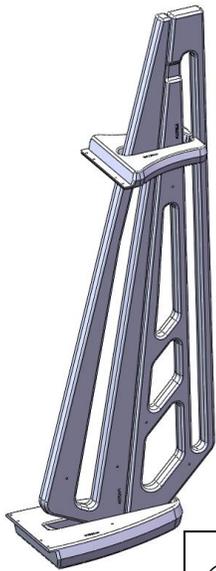

Inside Pool Step

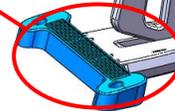

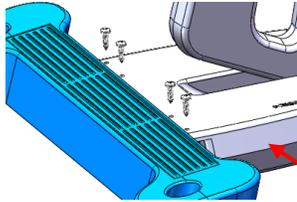

Outside Pool Step

① Lay the platform, inner ladder, and outside handrail on the ground. Follow the above illustration to connect handrails. Refer to **ASSEMBLY DETAIL C** for screw and washer order. After this step, the ladder should be in an "A" shape, as shown.

② Insert 4 anti-slip plugs under inside and outside base steps as shown above.

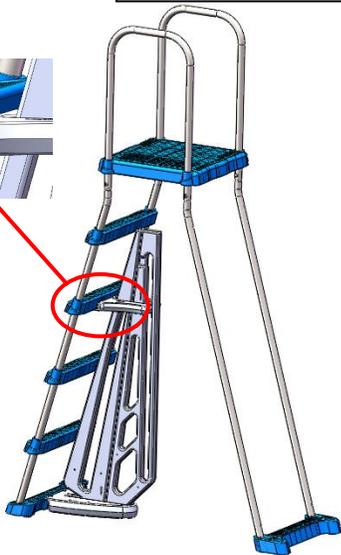

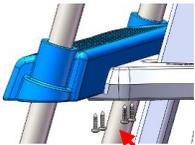

Inside Pool Step

③ Assemble the Barrier as shown.

④ Connect the Bottom Step and Barrier using screws, as shown.

Inside Pool Steps

Outside Pool Steps

⑤ Stand the ladder up as shown, insert and connect the bottom steps, making sure to assemble the Inside and Outside bottom steps in the proper locations. Connect the Barrier to the Inside Tread as shown.

⑥ Following **ASSEMBLY DETAIL D**, assemble the four (4) Safety Clips on the outside part of the ladder frame, as shown.

Step 5: Install Removable Safety Steps

① Insert the removable Safety Steps into the holes in the Bottom Outside Step. Tilt the Removable Safety Steps up, aligned with the Outside Rails.

② Clip the Removable Safety Steps into the Safety Clips as shown to finish the installation.
