Welcome to the World of Sapphire

Discover the latest in innovation and design technology that was developed specifically for you and built to adapt to your environment. Sapphire's complete product line with detailed design, precise integration and unsurpassed performance sets a new standard in built-in undercounter ice-making and cooling products.

Sapphire is the newest addition to The Legacy Companies (TLC) portfolio of residential and commercial brands. TLC, a global leader based in Florida, is beyond equipped to tackle the challenges faced with integrated installation, flexibility and design which had not been resolved. Our development team consisted of five industry leaders from the undercounter ice machines and refrigeration product segment. Our observation was clear: The market doesn't need just "another" undercounter product. Most brands have treated the built-in undercounter segment as a filler to a line of appliances with limited innovation and thought. In many cases, the product is sourced from factories based on what they already produced.

The result: Sapphire. A product that not only exuded beauty and a refined look but also worked seamlessly into any environment and situation. Sapphire was created to be a leader in the industry – not just another brand extension, but a singular line that was entirely focused on what it takes to be the best in the undercounter space. Designing, engineering and manufacturing our product in our own factory!

With all the aspects of development and manufacturing under one roof, the Sapphire family of products works perfectly for the cook, the craft cocktail maker, entertainer and family for installation indoors, outdoors or ADA height applications.

The attention to design detail is evident from top to bottom, inside and out. From the beautiful signature Sapphire blue interior, seamless integration, door and handle design, shelves and bins, elegant lighting, Sapphire's precious elements are unmistakable.

For more stunning details, see each product page for further highlights.

Superior engineering and designed for luxury, your entertainment is effortless with Sapphire Appliances. Whether indoors or outdoors, Sapphire Appliances keep you cooler faster.

Series 7 & 5 Make Entertaining Easy With Sapphire's Superior Performance.

Superior engineering and designed for luxury, your entertainment is effortless with Sapphire Appliances. Whether indoors or outdoors, Sapphire Appliances keep you cooler faster.

EASY-TO-USE ELECTRONIC CONTROL SYSTEM

actively manages your ice-making and refrigeration systems. In addition to normal control functionality, you can easily manage lighting and hours of operation.

UNMATCHED INTEGRATION

complemented by full stainless cabinet/ exterior and articulating hinge provides precise zero-clearance installation.

ADAPTABLE CANTILEVERED RACKING SYSTEM

allows you to choose from multiple locations and interchangeable inserts.

THE LED THEATER LIGHTING

illuminates through the shelves and/or racks, allowing you to clearly see what is inside.

WITH MULTIPLE RACK LOCATIONS,

the racking system allows you to choose from wine racks, tempered glass shelves or/and chrome-plated wire shelves if out of the box configurations are not ideal for your current needs.

ADAPTABLE GRILLE DESIGN

allows meticulous alignment with adjacent cabinetry and the option to design a continuous cabinet toe kick.

TEMPERATURE MANAGEMENT & RECOVERY

provides fast cool down and maintains even temperature. Sapphire's cooling system is engineered with a powerful compressor, twin condenser motor fans, optimized wind route system and vortex technology to achieve fast cool down and even temperature resulting in an extremely energy efficient operation.

Series 3 Designed to Deliver the Fit & Feel of a Premium Undercounter Product without the Premium Price.

Specific Engineering and design deliver a product with the attributes that meet the premium install and performance space but the feature and price level of a mass premium product.

OUT OF SIGHT, OUT OF MIND

Simple controls with loads of function. 4 Buttons with LED display shows set and actual temperature along with alert codes and the ability to run self-diagnosis, all while remaining out of sight.

HINGES ARE O' SO SLICK

Installs like a cabinet - no air gap needed with front breathing system resulting in a flush zero clearance installation.

LET IT SLIDE

Full extension shelves with stainless steel fronts allow for easy storage and visibility of all of your bottles, cans or other items.

LIGHTS, CAMERA, ACTION

Strategically located to supply a Cool White LED light to showcase the contents of your Beverage/Wine Center or Refrigeration unit with 2 top/front mounted LED light bars.

YOUR PLACE OR MINE

Shelves are adjustable with 9 different locations to adapt to various bottle and can sizes. Adjustable for today or tomorrow as your storage needs change.

THE BOTTOM IS AS IMPORTANT AS THE TOP

Thoughtfully designed 304 Stainless Steel fixed toe kick matches perfectly with door design and allows easy install with a clean finished appearance, set back to function like a cabinet toe kick.

THE TEMPERATURE IS RIGHT

provides fast cool down and maintains even temperature. Sapphire's cooling system is engineered with a powerful compressor, twin condenser motor fans, optimized wind route system and vortex technology to achieve fast cool down and even temperature resulting in an extremely energy efficient operation.

The Right Fit.

Select Sapphire models are sized and engineered to allow precise zero clearance for flush installation for unmatched integration into a standard 24" depth cabinet in any inset, frameless or overlay face-framed style cabinetry. This is accomplished by designing products to the same measurements as cabinet dimensions. Combine articulating hinges, adjustable toe kicks, panel-ready models and you have a product that will precisely and seamlessly install into your cabinets and design lines.

Select Sapphire products are panel-ready for your $\frac{3}{4}$ " custom door panel and handle. They include an adaptable grille design which allows meticulous alignment with adjacent cabinetry and the option to design a continuous cabinet toe kick. If a stainless-steel finish is a design requirement, these models will also precisely install within your cabinetry and toe kick, creating their own fashion statement.

Sapphire Panel-Ready products allow for adding a panel or frame of up to 25 lbs. (more than any other competitor).

Fits like a Cabinet, Not an Appliance.

Panel Ready

ICE MACHINES

The Legacy Companies' decades of commercial and restaurant-style ice machine innovations are now available for the residential marketplace. Sapphire offers three different ice types, producing up to 75 pounds of restaurant-quality clear or crescent ice per day, allowing you to select which ice type fits your lifestyle.

- Produces up to 68 lbs of 1½" x 1½" x 1½" gourmet cubes per day
- Bin stores up to 25 lbs of clear ice
- Energy Star rated (SIIM15PSS/PR)
- Integrated water filter system removes any impurities producing the clearest ice, filter included
- Clear ice scoop and storage hook included
- Signature SAPPHIRE blue interior
- Fully wrapped stainless-steel exterior
- Articulating, concealed self-closing hinges with built-in door stop
- Multifunction capacitive touch electronic control
- Auto shut-off when ice bin is full
- Alert notifies when time to initiate easy cleaning process
- Quiet mode feature can be set to suspend ice-making production during specific times of the day
- Full LED theater lighting
- Unit ships right hinged with field-reversible doors
- Stainless model includes a 1" diameter stainless steel handle with faceted standoffs (26" length)
- Panel ready model requires ¾" custom door panel and handle
- Precise zero clearance design allows for unmatched integration into any built-in setting
- 4 Independent adaptable leveling legs
- Black steel grille accepts an integrated toe kick
- Adaptable grille design allows alignment with adjacent cabinetry and toe kick/plinth
- Installation requires a customer-supplied water line and includes a 10 ft factory-installed drain line
- Factory-installed pump
- Replacement water filter part no. 601503
- Outdoor model available

WINE REFRIGERATORS

Help safeguard your wine and store up to 56 standard 750 ml bottles in a Sapphire Wine Refrigerator.

All facets were considered while designing and engineering the Sapphire line. The adaptable cantilevered racking systems and wine rack inserts in select models accommodate even the most unique-sized bottles in your wine collection. Virtually vibration-free operation alleviates any unwanted cavitation and Argon-filled UV-coated glass front doors protect your wine from light damage. Finally, the temperature control system maintains your wine for proper storage, maturation and integrity. Cheers!

Space Management. Life Changes. Accessibility.

Accessorize your Sapphire. The ability to manage a variety of wine bottles and can sizes in addition to other storage needs is at the forefront of Sapphire design. Select Sapphire models have been engineered with cantilevered racking systems and interchangeable inserts, making it easy to adapt for your current food and beverage storage needs as your preferences evolve over time.

With multiple rack locations, the racking system allows you to choose from wine racks, tempered glass shelves and chrome-plated wire shelves if out of the box configurations are not ideal for your current needs. Of course, as your food and beverage demands change, you can adapt your unit with the appropriate racks and insert accessories to fit your new needs.

All racks and shelves are full extension glide-out – making access to your food and beverage items easy and convenient, even if items are hidden in the back. The LED lighting illuminates through the shelves and racks, allowing you to clearly see what is inside.
