

CHALK n' ROCK

Age
6+

The Chalk and Rock bucket will give you everything you need to create a fun outdoor collaborative art project. Perfect for families, schools, local parks or your own neighborhood.

Your deluxe set includes 20 rocks, colorful chalk, easy-to-apply transfers, transfer sponges, weather resistant paint and extra brushes.

Getting Started

You will need scissors, paper towels and a cup of water. Cover your work surface with paper towels. This paint may stain. Wear old clothes and clean up any spills while the paint is still wet. Paint can separate over time. Mix each color before you begin. Before changing colors, rinse and dry your brush.

Creative Brainstorm

Here are some ideas to get you started! For best results find a large paved area, where it is safe to draw with chalk. Always ask for permission before you begin.

Use the chalk to create a beautiful **garden** backdrop, with plants, leaves and flower stems. Turn your painted rocks into flowers, bugs, turtles, mushrooms and butterflies to complete your chalk art garden.

Draw a colorful **rainbow**, and fill it in with your beautifully painted rocks.

Under the Sea - With your chalk and rocks, what kind of fish, sea shells and plants will you create? Maybe add a friendly octopus, mermaid or some hidden treasures?

Outer Space - Use your chalk to draw a space theme. Paint comets, stars, aliens, and planet inspired rocks. Don't forget your rocket ship!

Heart - draw a large heart. Spread love and kindness by filling in your heart with your beautifully painted rocks.

Paint

For better coverage, add a layer of white paint first.

To deepen colors, and an extra coat of paint. Allow the paint to dry between coats.

Pro Tip: To paint dots or small areas, use the handle of your paint brush.

Applying Transfers

Make sure the paint is completely dry before applying a transfer. You can also use the transfers directly on the bare rock.

1. Cut transfer to fit rock, cut excess paper.
2. Peel off clear film. Place the picture side down on rock.
3. With a wet sponge press the back of the transfer against rock
4. Peel the corner to make sure the design is adhered. If not, use a bit more water.

CHALK N' ROCK #6567000

© Faber-Castell USA, Inc.

Cleveland, Ohio 44131

Chalk Made in China

All other components made in India

Conforms to ASTM D-4236
