

## NOTES:

- Instructions are applicable to sconce and surface mount versions.

## REQUIRED TOOLS:

- Phillips Head Screwdriver

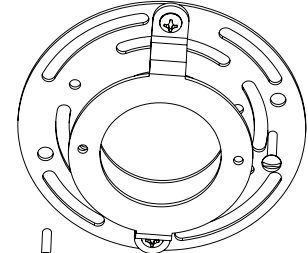

## INCLUDED HARDWARE:

Wiring Kit (x1)

8-32 x 1" Screws (x2)

Circle Bracket Assembly (x1)

## INSTALLATION INSTRUCTIONS

1. Detach Bracket Assembly from Scallop Fixture by removing 8-32 x 1" Decorative Mounting Screws with a flat head screwdriver (not included). Reserve screws for final step of installation.

- a. Attach Bracket to the junction box using provided Screws in Wiring Kit.

2. Wire Scalped Fixture to Junction Box using provided Wiring Kit. Ensure Wire Nuts are behind the fixture Mounting Bracket and inside the electrical Junction Box. Consult electrician if necessary.

3. Slip the fixture over the Bracket Assembly and align holes on fixture with the holes on the Bracket Stand-offs. Attach the fixture to the Bracket using reserved 8-32 x 1" Screws. Tighten securely.
