STEP 3:

STEP 4:

STEP 6:

The diagram illustrates the final step of assembly, showing the back panel being attached to the frame. The back panel is labeled "BACKSIDE". The frame consists of a top rail (C), a bottom rail (M), and side rails (L and H). A screw (5) is used to secure the back panel to the top rail (C). A callout shows a close-up of the screw (5) being inserted into the rail (C) and secured with a washer (4) and a nut (6). The callout also shows the screw (5) being inserted into the rail (C) and secured with a washer (4) and a nut (6). The callout also shows the screw (5) being inserted into the rail (C) and secured with a washer (4) and a nut (6).

ASSEMBLY COMPLETE

INSTRUCTIONS FOR ADJUSTING LEVELER:

Position the bed in your space and locate the leveler under each support leg.

Turn the leveler counter-clockwise to extend the leveler and clockwise to retract it.

Adjust each leveler until each support leg is applying equal, upward pressure on the bed support slat.

MAINTENANCE INSTRUCTION:

- Remove box spring and mattress before moving your bed.
- Lift your bed when moving it. Dragging can damage the leg support.
- Readjust levelers after moving your bed.
