

1. **Identify the components of the cell.**
2. **Describe the function of each component.**
3. **Explain the process of osmosis.**

4. **Explain the process of photosynthesis.**
5. **Describe the structure of a leaf.**
6. **Explain the process of transpiration.**

7. **Explain the process of respiration.**

8. **Explain the process of digestion.**
9. **Describe the structure of the human digestive system.**
10. **Explain the process of excretion.**

11. **Explain the process of reproduction.**
12. **Describe the structure of the human reproductive system.**
13. **Explain the process of heredity.**
