

The Statue of Liberty

Read the paragraph.

The Statue of Liberty sits in New York Harbor. This famous statue was given to the United States by France. Most of the statue is green because it is made of copper. The torch is golden because it is covered in a thin layer of gold. Lady Liberty stands 305 feet tall and wears a size 879 shoe! Inside the statue, there are 354 steps to the crown and 25 windows. The crown has seven spikes that stand for the oceans and continents. Millions of people visit the statue every year. Representing freedom, the Statue of Liberty is an important symbol to many people.

Decide if each question can be answered by reading the paragraph.

- 1 What size is the Statue of Liberty's shoe?
