Phone: 800-997-9301

1 Stake Corners

Secure the anchors by pounding the stakes into the ground with a rock or hard object. If the ground is too hard, tie the anchors to a rock or another heavy object.

2 Inflate Airbeam

To open valve, twist counter clockwise and pull. Use your mouth to inflate the airbeam. Push in valve and twist clockwise to close. Inflate airbeam as much as possible to maximize strength.

3 Tighten Drawcord

For full bug protection, once inside, pull on the shock cord drawstring while squeezing the cord lock located at the opening of the bivy.

©2018 NEMO Equipment, Inc.

Remember to leave no trace. Before leaving your campsite, take a thorough look around making sure you have not left anything behind, out of place, or damaged.
