Amazing Manicures

- Wash your hands and file your nails, following the shape of your finger. File in one direction only to smooth your nails.
- Gently shake the polish and paint.
- Place your fingertips inside the nail dryer and gently push down to dry.
- When completely dry, add nail art stickers as desired.

NOTE: Nail polish should be tightly closed when not in use.

To remove polish and stickers peel them off. You can also soak and scrub your hands with warm soapy water.

Fun Fakes

Working with clean dry nails, select a nail size to fit each finger. Match the adhesive end of the nail with the bottom of your natural nail. Gently press them on. You can keep them all the same, or try mixing and matching the patterns.

To remove your nails, lift the side of the nail and gently pull. The nails can be re-used as long as the adhesive stays attached.
