

1. The motor is connected to the horizontal shaft.
 2. The horizontal shaft is connected to the gear.
 3. The gear is connected to the vertical shaft.
 4. The vertical shaft is connected to the pulley.
 5. The pulley is connected to the control panel.

QUESTION

1. The motor is connected to the horizontal shaft.
 2. The horizontal shaft is connected to the gear.
 3. The gear is connected to the vertical shaft.
 4. The vertical shaft is connected to the pulley.
 5. The pulley is connected to the control panel.

The motor is connected to the horizontal shaft. The horizontal shaft is connected to the gear. The gear is connected to the vertical shaft. The vertical shaft is connected to the pulley. The pulley is connected to the control panel.
