Stainless Steel Mini-Split Stands

The Stainless Steel Quick-Sling Mini-Split Stands by Quick-Sling provides the highest level of corrosion protection for coastal applications.

Made from 316 SS these stands are built with the same mounting dimensions as the standard powder coated mini-split stands.

Features:

- Holds up to 400 lbs
- Each foot is ready to receive ¼"-20 hardware for securing to an equipment concrete pad, cement or wood.
- 4 points of anti-vibration isolation washers are provided as well as four 50 durometer rubber pads on each foot.
- QSMS1801-SS and QSMS2401 come with additional stabilizer arm for additional strength.
