## Enhancement:

3M is pleased to announce the 3M™ Jacketed, Flat Cable Series 3603 is now RoHS Compliant.

3M's intent is to offer products that allow our customers to be in compliance with the European Union RoHS (Restriction of Hazardous Substances) and WEEE (Waste, Electrical and Electronic Equipment) directives. This change does not affect the form, fit or function of the cable, therefore product numbers and stock numbers will remain unchanged. The description, as well as the factory run number, will be updated to include "RC" for RoHS Compliant.

The Jacketed, Flat Cable Series 3603 is available in standard lengths of 100 feet with a minimum order quantity of one roll.

No new literature will be issued at this time. Please use the latest electronic revision of TS-0060 which lists the RoHS and WEEE compliance in the Features and Benefits section.

## Actions Required:

- Please notify customers of this enhancement.

Thank you for your continued support of 3M products.
