

9" BENCH MANUAL COLD SAW

Item Number 9683336

FEATURES	ADVANTAGES	BENEFITS
Direct drive power train	<ul style="list-style-type: none"> • Bronze worm gear & hardened ground worm screw in an oil bath • Delivers 98% of the available motor torque to the blade 	<ul style="list-style-type: none"> • Greater efficiency • Quieter operation
Full contact head pivot point	Full contact bearing of the saw head to the base	<ul style="list-style-type: none"> • Provides greater rigidity • Greater vibration absorption • More accurate cuts
Miter cutting with precision scribed scale	<ul style="list-style-type: none"> • Saw head rotates while the workpiece remains fixed • Quick easy set-ups 	<ul style="list-style-type: none"> • Less space is required • Greater operator convenience • Greater accuracy • More efficient • Lower cost per cut
Continuous screw vise	Secure, conventional tightening	<ul style="list-style-type: none"> • Minimizes vibration • Greater workpiece finish • Greater operator ease & convenience
Totally enclosed blade guard	Meets all safety guidelines	Greater operator safety & convenience
Safety electrical package	<ul style="list-style-type: none"> • Thermal overload protection with magnetic starter • Spring loaded 24 volt trigger switch • Emergency stop button 	Greater operator safety
Flood coolant system	Most effective way to remove chips from the blade & workpiece	<ul style="list-style-type: none"> • Longer blade life • Maximizes workpiece finish • Increased accuracy of cut
Cast iron construction	Minimizes vibration & deflection	More accurate cuts
Adjustable material work stop	<ul style="list-style-type: none"> • Easily adjusts to workpiece length • Accurately handles both long & short workpieces 	<ul style="list-style-type: none"> • Allows for accurate repetition of cuts • Delivers consistent accuracy • Increases throughput • Lowers cost per cut
