## M175XUC POWER INVERTER

Convert DC power to AC power for laptops, mobile devices, and electronics

The 175 Power Inverter (M175XUC) from CyberPower converts power from your vehicle's 12V DC power outlet to simultaneously power and charge up to four devices (175-watt peak) with its two household AC outlets, one 2.4 Amp USB-A port, and one 15W USB-C port. Use the AC outlets to power portable electronics while you're traveling. The USB ports will charge tablets, smartphones or any other USB-enabled device.

Safety features such as a 15-Amp fuse, surge protection, and automatic shutdown protect your connected devices from power surges and your automotive battery from power drain. The CyberPower M175XUC, which comes with a 2.5-ft power cord and a DC power plug, is ideal for powering mobile devices and office electronics while you're traveling. For peace of mind, this product is backed by a two-year limited warranty.
