

V12/V15S

SINGLE MOTOR VACUUMS

HILLYARD

The Cleaning Resource®

 **TRIDENT®**

Better Built. Better Equipment.

Better Built. Better Equipment.

Intelligent design, exceptional engineering and innovative technology delivers reliability, performance, and ease of maintenance in the form of the Trident V12/155 single motor vacuums. With lightweight handles, the V12/155 vacuums are comfortable to operate. Delivering 1,200 watts of power, the V12/155's vacuum motor pulls even more dirt and grime from your carpets.

Intelligent Design

- Ultra-light handle weight allows for strain-free operation.
- Flat-to-floor design delivers easy cleaning under beds and furniture.
- Easily remove the brush without any tools.
- Detail cleaning tools are cleverly located on the back of the machine.

Exceptional Engineering

- Built-in protection from misuse. If a bag is not installed or filter is not in place, the V12/155's door will not close and the machine will not run.
- Standard, high-efficiency filter traps up 99.6% of particles at 0.3 microns. Optional HEPA filtration available.

Innovative Technology

- Lights indicate full vacuum bag, if brush height adjustment is required, or if there is a brush jam. If the lights are ignored, the V12/155 will automatically shut down, protecting your employees and equipment from potential harm.
