

DZEK + FORMAFANTASMA: ExCinere SCULPTURE

Please note all dimensions are nominal and can vary +/- $\frac{1}{4}"$.

DZEK + FORMAFANTASMA: ExCinere SCULPTURE

What's in our collection: OUTERclé is pleased to announce our exclusive offering of ExCinere. Renowned design team Formafantasma is a research-based design studio investigating the ecological, historical, political and social forces shaping the discipline of design today. OUTERclé is the exclusive stockist of the monolithic sculptural elements clad in that tile.

Excinere's colors and textures are created by expertly mixing volcanic matter and will exhibit degrees of variation in color and shade. This means that your sample may not be a perfect match with your actual order, and that your add-on order may not be a perfect match to either. **This is the beauty of artisanal tile!**

INSPECTING YOUR SHIPMENT

- **WHAT TO EXPECT** – Excinere Sculpture features diverse glaze colors and textures. ALSO - dust and shipping residue are to be expected and should be cleaned prior to installing.
 - **SHIPMENTS ARE SUBJECT TO WEATHER** – Items may be exposed to moisture and/or condensation during production or shipping which may affect their color once received. Once dry, the items will return to their natural color.
-

INSTALLATION FYIs

- **GENERAL GUIDELINES, NOT INSTRUCTIONS** - OUTERclé offers general information about our items and their unique qualities and usages.
- **EXTERIOR INSTALLATIONS HAVE UNIQUE CHALLENGES** - Exterior installations are subject to sun, rain, snow, changes in temperature, and other environmental factors. Please consult your project architect, designer, structural engineer, manufacturer of installation materials, and installer for best results.
- Excinere pieces should avoid prolonged exposure to moisture. We recommend either placing them in a sheltered area or covering them during times of inclement weather.
- **INSTALLATION DEEMS ACCEPTANCE OF YOUR ORDER** - If you are not 100% sure of your items- DO NOT INSTALL THEM. As is standard in the tile industry and with all construction materials, installation deems acceptance of materials. Do not install if there are visible issues. If you have any doubts or are unsure of what qualifies as a visible issue for your item, please reach out to us. Our items are subject to variations in color, texture, size, and finish. Misuse by contractor or end-user including but not limited to negligence, physical and/or chemical abuse, as well as order shortages ARE NOT an OUTERclé responsibility and therefore, not covered by OUTERclé's warranty.

- **INSTALLATION ERRORS ARE NOT THE FAULT OF THE MATERIAL** – Installation problems will arise from inexperienced installers, substrate, or construction engineering and/or installation issues. Please refer to your project architect, structural engineer and/or installer for best results.
 - **PLEASE CONFIRM YOUR LANDSCAPE INSTALLER'S LEVEL OF EXPERIENCE** - We strongly suggest choosing installers who have shown their commitment to their craft and remained current with the latest methods and materials. We suggest requiring references and a portfolio along with a bid or estimate to ensure the installer has successfully completed work of similar size, scope, and complexity. Your installation will only be as good as your installer.
 - **TCNA and ANSI** - Please refer to the current edition of the TCNA Handbook for best installation results.
-

INSTALLATION AREAS

- The tile which clad Excinere Sculpture items are freeze/thaw rated.
 - Excinere Sculpture items should not be climbed on.
 - Excinere Sculpture items are UV resistant.
 - Excinere Sculpture items are heat resistant, but the structural skeleton beneath is not. Please install your items at least three feet away from any direct heat.
-

SEALING, MAINTENANCE, AND CARE

- Excinere Sculpture pieces should be protected during prolonged periods of harsh weather. We recommend either moving the pieces to a sheltered location or purchasing a cover for the pieces.
- Please follow Laticrete's [Sealing, Maintenance, and Care Guide](#) for more guidance on cleaning, maintaining, and caring for your tile installation.
- **If you have any questions regarding Laticrete products or how to use them, please contact Laticrete directly by phone: 1-800-243-4788 X 1235.**

ADDITIONAL SPECIFICATIONS

FREEZE/THAW RESISTANCE (ASTM C1026)

Excinere tiles that clad the sculptures are freeze/thaw resistant.

The Freeze/Thaw resistance test is a guide for choosing materials suitable to environments where freezing and thawing can occur.

ACID RESISTANCE

Excinere tiles are not resistant to acids and only mild, pH neutral cleaners should be used.

COLOR, TEXTURE AND SIZE VARIATION

Color variation: level 2 - slight
Texture variation: level 1 - smooth
Size variation: level 1 - slight

CATEGORY	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4	LEVEL 5
COLOR VARIATION	 low	 slight	 medium	 heavy	 extreme
TEXTURE VARIATION	 smooth	 slight	 medium	 heavy	n/a
SIZE VARIATION	 slight	 medium	 heavy	 extreme	n/a

IMPERFECTIONS

Chips: level 1 - will occur

CATEGORY	LEVEL 1	LEVEL 2	LEVEL 3
PITS / CHIPS	 will occur	 prevalent	 heavy

Crazing: level I - will occur

CATEGORY	LEVEL 1	LEVEL 2	LEVEL 3
CRACKS / CRAZING	 will occur	 prevalent	 heavy

PRODUCT DESCRIPTION

A wooden inner frame covered with volcanic ash-glazed porcelain tiles.

PRODUCT COMPONENTS

Wood, Porcelain and volcanic ash glaze.

DIMENSIONS

SHAPE	DIMENSIONS	WEIGHT
ALPHA	78.1 cm (h) x 74.9 (w) x 64.8 cm (d) (30 ¾" x 29 ½" x 25 ½")	70 kg (154.32 lbs)
COFFEE TABLE	29.8 cm (h) x 120 cm (w) x 68.8 cm (d) 11 ¾" x 47 ¼" x 27"	60 kg (132.28 lbs)
SIDE TABLE	45.1 cm (h) x 29.8 cm (w) x 29.8 cm (d) (17 ¾" x 11 ¾" x 11 ¾")	18 kg (39.68 lbs)

* Please note all dimensions are nominal and can vary +/- ¼"

LEED CREDITS

The product is an inherently non-emitting source of VOCs (stone, ceramic, porcelain, metals, powder-coated metals, plated or anodized metal, glass, cement, clay brick, and unfinished or untreated solid wood) and has no integral organic -based surface coatings, binders, or sealants.

Excinere tiles are considered 'inherently non-emitting sources' under the Low-emitting Materials Credit of LEEDv4/v4.1. **This is currently the only credit for our Excinere tiles that is eligible to be used toward LEED.**

'Inherently non-emitting' means that these tile types have been shown to not contribute emissions to indoor environments and are therefore exempt from demonstrating compliance with CDPH v1.1-2010 or CDPH v1.2-2017.

Use of these tiles as Wall or Flooring materials should be entered in the LEED v4.1 low-emitting materials Calculator and identified as 'inherently non-emitting' in the Products Tab (Column L).

Disclosures for MR Credit Material Ingredient Disclosures under LEEDv4/v4.1, are not available at this time. We are exploring our disclosure options and have not established a timeline for completion.

Disclosures for MR Credit Environmental Product Declarations under LEEDv4/4.1, are not available at this time. We are exploring our disclosure options and have not established a timeline for completion.

Contribution to MR Credit Material Sourcing under LEEDv4/v4.1, does not apply as there is no recycled content, no bio-based materials, no wood, no reused products included in our tile at this time. Extended producer responsibility programs are highly difficult to manage given the nature of end-of-use tile removal methods. *Tile can last hundreds of years but fashions often change, which is the dominant reason for its removal. We work hard to ensure our porcelain tiles can withstand the test of time while remaining timeless.*

RECYCLED CONTENT

There is currently no recycled content in Excinere. See material sourcing disclosure above.

PERCENTAGE OF PRE-CONSUMER AND/OR POST-CONSUMER MATERIALS

There is currently no pre-consumer or post-consumer material content in Excinere. See Material Sourcing disclosure above.

FIRE RATING

We currently do not have fire testing results for our ExCinere Sculpture pieces and are exploring our testing options.

Though typically, porcelain tile does not need to have fire rating testing performed. It is our understanding from TCNA that the explanation that porcelain is inorganic, inert, and typically free of materials that could burn or produce smoke is generally enough to satisfy a specifier and that testing is not necessary. Also, the temperatures observed in the testing are typically lower than the temperatures at which porcelain tiles are fired.

Porcelain tile falls under the description, "because porcelain tile is non-flammable and does not produce smoke in a fire, it inherently meets the flame spread and smoke development requirements of Section 803 of the International Building Code (IBC) for interior wall and ceiling materials."
