

Fragrance	Citrus
Formula Type	Wipes

Safety

See safety datasheet (if applicable) and product label for safety information, handling and proper use.

Directions for Use

Scrub surface with abrasive side towel until stains and deposits disappear. Use the smooth side to wipe the surface clean. Discard used towel. For a super shine, buff lightly with a soft, dry towel after application.

Quick and Clean Stainless Steel Cleaner Wipes are the most effective wipes available to clean, polish, and protect stainless steel surfaces in one easy step. The high-performance formula is non-streaking. They contain a proprietary blend of solvents and mineral oil to remove grease, grime, smudges, fingerprints, and watermarks, plus d-Limonene for a pleasant fragrance. This wipe uses a non-scratching towel, which is abrasive on one side and smooth on the other. Help extend the life of equipment by protecting against corrosion and watermarks. An ideal alternative to aerosol stainless steel cleaners where slips from fallout and overspray are a concern, such as in hospitals, nursing homes, elevators, kitchens, and other common areas.

Features & Benefits

Clean and polish stainless steel in one easy step.

Ideal for removing grease and smudges in kitchens, elevators, and other common areas.

Unlike aerosol cleaners, there's no overspray which can lead to slippery floors.
