98 Bottle/200 Can Dual-Zone Wine & Beverage Center
EL-100WBC-TS

Vinotemp's Dual-Zone Wine & Beverage Center brings an element of class and elegance to any room. This premium wine & beverage cooler will allow you to store your collection in the optimal conditions so that your wine and beverages can be kept at respective temperatures. An easy-to-use digital control panel with LED readout allows you to set the individual cooling zones at two different temperatures to ensure that your wine bottles and beverage cans are maintained properly. This unit features two dual-paned glass doors with recessed handle that separate the wine storage in the upper zone and beverage storage in the lower zone. Outfitted with 7 Ouzo™ gliding wire racks with black lip and 4 tempered glass shelves, this wine & beverage cooler can hold approximately 98 bottles and 200 cans in two separate cooling zones. Frameless cabinet with all-glass technology and dual-paned glass doors give a stylish look to this cooler while providing you with easy access to your favorite wine and beverages. This attractive and modern wine & beverage cooler is designed to be a worthy home for all of your finest collections.
