

### STAMP

This is a collection of stamps from various countries, including the United States, Canada, and Mexico. The stamps feature various designs, including portraits of historical figures, landscapes, and architectural structures.

The collection includes several 1-cent stamps, as well as larger denominations such as 10-cent and 20-cent stamps. The stamps are arranged in a grid-like fashion, with some larger stamps placed in the center and smaller ones surrounding them.

The stamps are mostly rectangular in shape and feature a variety of colors, including red, blue, green, and yellow. The designs are intricate and detailed, with some stamps showing the full profile of a person's face and others showing a full-length figure or a specific architectural detail.

### POSTAGE

The stamps are part of a larger collection, with some stamps placed on top of others. The designs are simple and iconic, reflecting the traditional style of British postage stamps.
