Actual Size: 18.85 mm x 6.80 mm

Probiotic-Pro BB536®

Bifidobacterium longum
High-Potency, Shelf-Stable Probiotic
10 Billion Active Cells*

- High potency: 10 billion colony forming units (CFUs) of *Bifidobacterium longum* BB536 per capsule
- Superior shelf stability when compared to other species of *Bifidobacterium*
- BB536 is one of the most studied species in the world
- Resistance to gastrointestinal (GI) acidity allows the formula to reach the large intestine
- Stable at room temperature; refrigeration not required
- Suitable for vegetarians/vegans

PRODUCT SUMMARY

Probiotic-Pro BB536 is a high-potency probiotic containing 10 billion CFUs per capsule of the species *Bifidobacterium longum* BB536, one of the most researched in the world. It is a proprietary strain with a remarkably longer and more stable shelf life than other probiotic supplements, demonstrating a lower loss rate than other strains of *Bifidobacterium* exposed to multiple different temperatures.

Isolated from healthy human GI tracts, *Bifidobacterium* has long been recognized to be a beneficial genus, constituting over 90% of total GI bacteria in breastfed infants. It has been shown to have multiple immunomodulating effects, such as increasing the production of secretory IgA and activity of both NK cells and neutrophils, as well as balancing Th1 and Th2 immune activity. It has also been shown to enhance mucosal barrier function in the colon, partly by upregulating tight junction molecules. In clinical trials, supplementation with BB536 has been shown to reduce allergic symptoms, decrease influenza infection, lower serum cholesterol levels, normalize elimination frequency, reduce pathogenic bacterial populations, and support normal GI tissue.

PROBIOTIC-PRO BB536®

BIFIDOBACTERIUM LONGUM · HIGH-POTENCY, SHELF-STABLE PROBIOTIC · 10 BILLION ACTIVE CELLS*

Serving Size: 1–2 Vegetarian Capsules

Servings Per Container: 60

Each Capsule Contains:

Bifidobacterium longum BB536® 10 billion cfu**

**cfu: colony forming units.

*Guaranteed minimum 10 billion active cells per capsule at time of expiry.

Non-medicinal Ingredients: Microcrystalline cellulose, calcium carbonate, vegetarian capsule (carbohydrate gum [cellulose], purified water), vegetable grade magnesium stearate (lubricant).

Recommended Adult Dose: 1–2 capsules, 2–3 times per day, or as directed by a health care practitioner. Take at least 2–3 hours before or after antibiotics.

Recommended Use: Probiotics form part of the natural healthy gut flora and contribute to healthy gut flora. Probiotics benefit health and confer a health benefit.

Caution: Discontinue use and consult a health care practitioner if symptoms worsen or persist beyond 3 days, or if you experience nausea, fever, vomiting, bloody diarrhea, or severe abdominal pain. Do not use if you have an immune-compromised condition (e.g., AIDS, lymphoma, patients undergoing long-term corticosteroid treatment). This product may have come into contact with milk and gluten. Keep out of reach of children.

Drug Interactions: No known drug interactions exist. Separation by at least 2 hours from antibiotic use may improve the efficacy of Probiotic-Pro BB536.

Contains no artificial colours, preservatives, or sweeteners; no dairy, sugar, wheat, gluten, soy, corn, egg, fish, shellfish, animal products, salt, tree nuts, or GMOs. Suitable for vegetarians/vegans. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.
