## OVERVIEW

Safeguard your nLIGHT Wired, nLIGHT AIR and SensorSwitch control investment by using SensorSwitch Wire-Guards "WG Series". All models offer excellent protection against physical damage both accidental and intentional. Wire-Guards are ideal for schools, colleges, hospitals, nursing homes, stores, hotels, and any public building where there is a threat of malicious intent. These units are constructed with a sturdy 9-gauge steel that is coated with a heavy-duty polyester, which may be used in both indoor and outdoor control applications. When used with a radio device RF performance will be degraded compared to standalone device performance.

## FEATURES

- Compatible with ceiling, wall, fixture, and corner mount sensors
- 9-Gauge Coated Steel Wire
- Easy Installation and Removal
- Paintable
- Universal white, heavy duty, polyester coating
- Paintable
- CSFM and MEA approved
- UL Listed
- LED Status Indicator on Sensor Remains Visible
