

## THE BATTERY

1. The battery is the power source for the system.

2. It provides the energy to start the engine and to power the electrical system when the engine is not running.

3. The battery is located in the engine compartment and is connected to the engine and the electrical system.

4. The battery is a lead-acid battery and is composed of several cells.

5. The battery is a sealed battery and does not require maintenance.

6. The battery is a maintenance-free battery and does not require water.

7. The battery is a deep-cycle battery and is designed for long life.

8. The battery is a high-capacity battery and can store a large amount of energy.

9. The battery is a low-maintenance battery and is easy to use.

10. The battery is a reliable battery and is designed to last for many years.

11. The battery is a safe battery and does not contain any hazardous materials.

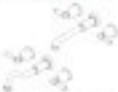

12. The battery is a clean battery and does not produce any fumes.

13. The battery is a quiet battery and does not produce any noise.

14. The battery is a lightweight battery and is easy to handle.

15. The battery is a compact battery and fits easily in the engine compartment.

## DISASSEMBLY

Part No.	Description	QTY
1	BATTERY	1
2	TERMINAL POST	2
3	MOUNTING BRACKET	2

1. The battery is the power source for the system.

2. It provides the energy to start the engine and to power the electrical system when the engine is not running.
