Ask Your Hillyard Account Manager For An On-Site Matting Evaluation

Ask your Hillyard Account Manager to perform a best practice floor care and matting evaluation to assist you in building the right floor care program for your facility.

About Hillyard

Founded in 1907, Hillyard is a leading manufacturer and distributor of cleaning and hygiene solutions. Helping people deliver clean, safe and healthy facilities is our purpose, passion and focus.

It's what we do. It's everything we do - every day!

We have the cleaning expertise and know-how that matters. It's how we help improve outcomes, lower cleaning costs, and deliver results that your stakeholders demand. We work to earn the right to be Your Cleaning Resource!

GATOR Heavy Duty Fiber Matting

- Better Appearance
- Better Protection
- Easier To Clean
- Saves Time
- Lower Risk Profile
- Lower Total Cost

GATOR
Matting by HILLYARD

ENTRY

High-performance matting can trap up to 85% of the soil entering your facility!

Go Clean-In-Place, It's The Smart Business Decision...

Custom, clean in place matting systems offer a host of advantages over traditional "throw-down" mats:

- It looks better and lasts longer without torn or curled edges.
- It offers better protection and reduces slip/fall potential by covering more area.
- It reduces trip hazards associated with raised corners on traditional mats or multiple "patch-work" mats placed in an entryway.
- It saves labor by vacuuming and extracting in place instead of having to remove mats to clean and having to "clean around" mats like with traditional matting.

GATOR Covers It All

- Custom Clean-In-Place
- Standard Sizes
- Rolls

Custom Inlaid Logos

- Great Looks, Maximum Performance

- Unequaled style and functionality in one mat.
- Unlike printed logos that stain and wear off over time, our Gator program utilizes virtually stain-proof solution dyed polypropylene which is hand inlaid into the base mat color of your choice and then reinforced with a vinyl patch for stability.
- Virtually unlimited sizes and shapes available.
- Made to withstand the rigors of even the highest traffic entranceways, you can be confident that your Gator inlaid logo mat is going to protect your floors while providing a great first impression for years to come.
- Easy to clean and maintain.

Contact your Hillyard Sales Consultant for more information on Custom Inlaid Logos.

GATOR
Matting by HILLYARD

ENTRY

Absorbs More Water...

When compared to the competition, the glass is neither half empty nor half full, it's *always* full! Better water absorption means less slop tracked into your building and reduced slip/fall potential.

Brand B
51% Less

Brand A
39% Less

Gator
Brand

Independent lab tests show the Gator Supreme Brand with its 52 oz. face weight holds 51% more water than brand B. Gator brand with its 37 oz. face weight holds 39% more water than brand A.

GATOR Brand Difference

Hillyard **GATOR** Brand

Typical Heavy Duty Matting

GATOR - More Fiber LESS Rubber Fill!

Packed with 37 or 52 ounces of face weight per square yard, Gator brand absorbs more water, lasts longer, and looks better over a longer period of time!

Typical heavy duty matting doesn't retain as much water, leaving more slop to clean up and greater potential for slip/falls on slick floors!

GATOR - Coarse, Thick Dense Fiber!

Provides excellent scraping action for maximum soil removal. Greater crush and abrasion resistance means Gator brand matting systems last longer! Typical heavy duty matting doesn't provide the scraping action to remove and trap soil. Also, it's more susceptible to crushing and abrasion, which impacts performance and shortens the life expectancy of the mat.

GATOR - 100% Polypropylene Fiber!

Non-porous, fade resistant, stain resistant and highly resilient. All qualities that lead to better looking, longer lasting and better performing matting!

How much GATOR Matting do I need?

At least 12-15 feet of high performance matting can contain 85% of the soil being tracked into a building - more is better.

GATOR - A Sustainable Choice!

High Performance Matting

An Integral Part of a Sustainable Cleaning Program

Hillyard Gator brand high performance matting, when deployed properly, can lower the frequency of some restorative cleaning processes, like stripping and recoating floors, and extracting carpets. Lowering the frequency of these processes can have a positive impact on indoor air quality, and resource consumption. The result is an improved environmental impact on your building, its occupants, and the outdoor environment.

Trap More Soil At The Door

Less Soil To Remove From Your Facility

Save Time and Resources

Hillyard Gator brand matting has a rubber backing which is environmentally preferred over vinyl or pvc.

ENTRY

Carpet & Rug Institute Green Label Plus

Green Label Plus is an independent testing program that identifies carpet with very low emissions of VOCs to help improve indoor air quality. It is an enhancement to the CRI Green Label Carpet Testing Program. By selecting Green Label Plus carpet or adhesive, you are assured one of the lowest emitting products on the market, and you may be able to earn LEED or Green Guide for Health Care points.

To receive initial certification, carpet products undergo a 14-day testing process, as required by Section 01350 that measures emissions for a range of possible chemicals.

An independent laboratory tests carpet products for emission levels for seven chemicals as required by Section 01350, plus six additional chemicals as required by CRI. For more information, go to www.carpet-rug.org. Green Label Plus Product Identification No: GLP8135.

Dirt Adds Up...

See what can get tracked into your building!

- .02 ounces per person per day
- 250 days per year
- 5 ounces per person per year

People	100	500	1,000
Pounds of Dirt	31	156	312
Cost to Remove	\$15,500	\$78,000	\$156,000

Industry statistics show it costs over \$600 to remove just one pound of dirt from your facility! Vacuuming, mopping, dusting, scrubbing, stripping and refinishing floors, it all adds up. It's easy to say, "just use some matting to stop the dirt before it gets in your facility."

The problem is not all matting is up to the task. It doesn't trap soil, absorb moisture, or retain a level of appearance that is worthy of your facility. It's time to put Hillyard Gator Brand matting to work for you - it's a high-performance system that can help maintain appearance levels, enhance safety, and lower your total cost of cleaning. Your Hillyard Sales Consultant is here to walk you through it!

**Over \$600
To Remove
One Pound!**

GATOR GATOR Supreme GATOR Elements

What's the Difference?

Gator Elements, Gator Supreme, and Gator are all premium matting products that are very closely related in content and structure. The differences are slight but can be very important.

How They Stack Up

Gator and Gator Supreme both have a Berber pattern in their top cloth. The Berber pattern is known for its rugged durability, great wiper/scrapper capability, and its resistance to traffic.

Gator Elements is a new Omni pattern. The pattern is a cross between a Berber and a ribbed pattern and was developed to have the same durability as the berber, with the benefit of being easier to vacuum and extract.

Both Gator Supreme and Gator Elements are 52oz per sq/yd face weight. Gator is 37oz per sq/yd. The face weight determines how much dirt, debris, and moisture a mat can hold. The heavier the weight, the more a mat can hold. So, Gator Elements and Gator Supreme are the heavyweight champions. Gator does have one distinct advantage- it works great where a lower profile mat is needed for door clearance.

 Backing: Natural/Synthetic Composite Rubber

Gator Elements

Construction: Non-Woven (Spike-resistant NP)
 Texture: Omni Pattern
 Pattern Repeat: None
 Face Fiber: 100% ASOTA Polypropylene
 Face Weight: 52 oz/sq yd
 Roll Widths: 13'2" and 6'7"
 Roll Length: 101'8" approximate
 Pile Height: 0.375 inches (variable)
 Total Height: 0.500 inches (variable)
 Usage: Indoor / Outdoor
 Pill Test: Passed (DOC-FF-1-70)
 Stain Resistance: Solution-dyed Fiber
 Backing: Natural/Synthetic Composite Rubber

Notes and Instructions

- All roll stock comes in either 13'2" or 6'7", any mat wider than 13'2" will need to be seamed on site.
- When measuring for recessed wells and/or confined areas, subtract 1/4" from the length and width as a variance. Example: Recessed well dimension is 10'6" wide by 5'2" tall, order a mat with dimensions of 10'5 3/4" wide by 5'1 3/4" tall. Mats ordered to exact recessed well dimension may require on-site trimming.
- When opting for Ultra Flex edging, the total mat dimension includes the edging.
- Rounded corners are recommended for all mats that have either beveled or heat sealed edges unless they are being installed in wells or wall-to-wall applications. Square corners may curl if exposed to traffic without Ultra Flex edging.
- All applications where carts of any kind are in use require Ultra Flex edging. Without it, mats will wear prematurely.
- Custom cuts may have additional labor charges - Please call 1-800-423-3550 for quote.

GATOR Hygiene Mats

For Hygiene

The Hillyard Gator Brand Hygiene Mat is a fully disposable hygiene mat with built-in antimicrobial protection. In restrooms, urine can migrate into the floor and grout surfaces where it becomes the source of odor-causing bacteria. The Gator Brand Hygiene Mat traps urine before it gets into the floor surface, eliminating the source of odor-causing bacteria.

For Safety

Gator Brand Hygiene mats are designed to contain moisture when liquid is spilled on the floor and cannot be immediately removed, reducing the potential for slip/fall accidents.

Ultra Fresh Technology

The EPA registered technology incorporated into Gator Brand Hygiene mats inhibits the growth of bacteria and fungi responsible for creating unpleasant smells and staining. By controlling unwanted microbes, this Ultra Fresh technology helps to keep products fresh, clean and odor-free.

Additional Features

- A moisture proof backing
- 100% recycled topcloth with antimicrobial protection
- Repositionable Adhesive
- Non-skid backing

GATOR

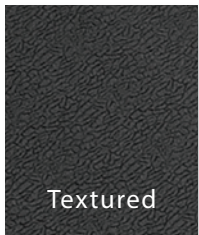

Anti-Fatigue Matting

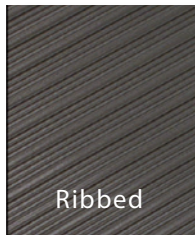

In conditions where lengthy periods of standing exist, worker discomfort and fatigue can impact productivity, absenteeism and health care costs negatively and needlessly. Hillyard Industries has a complete line of anti-fatigue matting products that provide comfort, safety and increased productivity in the workplace. Anti-fatigue matting is the most inexpensive yet beneficial method for preventing lower back and lower limb discomfort for your employees.

GATOR Comfort - Vinyl Anti-Fatigue Matting

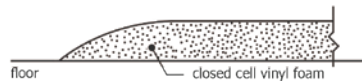

Gator Comfort combines the durability of vinyl foam cushion technology with three non-slip textures for safety in the workplace. Gator Comfort also features moisture and stain resistant properties that cut cleaning and maintenance time in half. Like many of our anti-fatigue matting products, Gator Comfort is manufactured with beveled edges for smooth transitions.

GATOR Kitchen Safety Matting

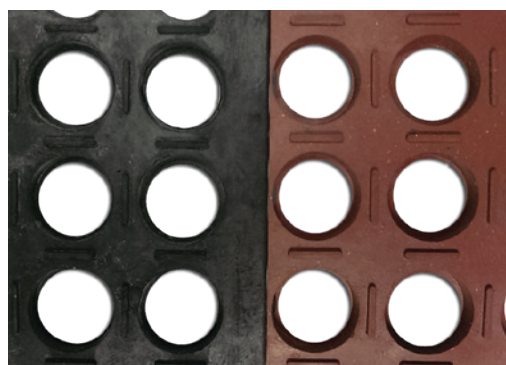

Safety and Comfort go hand in hand in a productive work environment. Gator Kitchen Safety Matting was designed to deliver just that. They can be used in both wet and dry applications. The open holes allow liquids to effectively drain through, making it the perfect mat for kitchen areas, behind bars, food service stations, machine shops and more. Our highly grease and oil resistant nitrile rubber matting is easy to clean, fully launderable, and made to last. Gator Kitchen Safety Matting provides relief from long days on your feet, and peace of mind.

Additional Features

- Anti-microbial properties inhibit growth of bacteria
- High quality nitrile rubber construction
- Easy to clean and fully launderable
- Grease/oil resistant
- Long lasting and comfortable
- Meets all ADA standards
