

LIL LEGENDS FAMILY OF VESTS (MV3250 / MV3555 / MV3560)

MUSTANG SURVIVAL WE SAVE LIVES FOR A LIVING

Often their first Mustang PFD, rarely their last, memories are made in the Lil Legends vests. With safety elements you don't have to think twice about, even while you're in the water with them—like the grab handle on the head pillow—this micro-mariner vest is engineered with the same technical expertise as our military grade goods. Designed for comfort that lasts, you'll get a solid day of on- or in-the water activities in knowing your precious cargo is good to be out as long as you are.

MV3250

For infants up to 30 lbs. Front zipper and adjustable waist belt ensure a secure fit. Ultra-soft fabric, vented mesh back, and beveled, softer foam means lasting, all day comfort. Segmented foam in the head pillow cradles their head to keep their mouth out of the water. Crotch strap keeps the vest in place and unclips in a jiff when a diaper change becomes a 9-1-1. US Coast Guard Approved.

MV3555

For children 30 - 55 lbs. Front zipper, adjustable waist belt and crotch strap ensure the vest won't pop up if they pop in. Pronounced grab handle at the head pillow makes rescues a no-brainer - especially when they matter most. Designed for comfort with ultra-soft fabric, vented mesh back, and beveled, softer foam. Engineered for safety with segmented foam in the head pillow to cradle their head and keep their mouth out of the water. Harmonized across borders: Transport Canada & US Coast Guard Approved.

MV3560

For children 30 - 55 lbs. Front zipper, adjustable waist belt and crotch strap ensure the vest won't pop up if they pop in. Pronounced grab handle at the head pillow makes rescues a no-brainer - especially when they matter most. Designed for comfort with ultra-soft fabric, vented mesh back, and beveled, softer foam.
