

# REPLACEMENT SOLAR PANEL

## SL-P103E-Panel

Review all information before using this product.

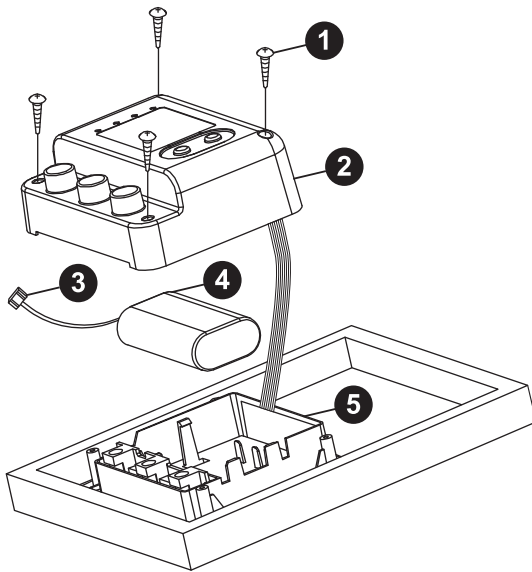

Inspect packaging to ensure all parts are accounted for before disposing of packing materials.  
Save the packing slip.

PARTS	QTY.
Solar Panel	1
Screws	4

### IMPORTANT:

### BATTERY PACK NOT INCLUDED

The solar panel requires one 7.4V 1500mAh 18650 lithium-ion battery pack for operation (not included).

### BATTERY INSTALLATION

**IMPORTANT:** Only use a compatible 7.4V 1500mAh 18650 lithium-ion rechargeable battery pack, alternatives may be incompatible which can damage the system and will void the warranty.

1. Lift Panel Cover ② off Control Panel Base ⑤, ensuring the wires connecting the components remain intact.
2. Connect the Battery Pack Connector ③ and install Battery Pack ④ (not included) into the control panel base.
3. Replace the panel cover and secure it to the base using Screws ①.

### ! SAFETY STATEMENTS & WARNINGS !

- Always unplug the power supply before cleaning and maintaining the solar panel.
- Always empty and store the fountain, pump, and solar panel indoors during freezing weather.

**Any modification to the product or failure to follow recommended care will void the product warranty.**

### ! WARNING:

Manufacturer and seller expressly disclaim any and all liability from personal injury, property damage or loss, whether direct or indirect, or incidental, resulting from the incorrect attachment, improper use, inadequate maintenance, or neglect of this product.
