

Hot Stuff^{TM/MC}

Oven and Grill Cleaner

Premium, high-active ready-to-use oven and grill cleaner. Heavy-duty, alkaline liquid that rapidly removes heavy accumulations of baked-on fats, oils, greases and carbon deposits from ovens of all types.

Features & Benefits

- Powerful alkali action removes even heavily carbonized soil
- Thickened to cling to vertical surfaces and increase contact time
- Rapidly removes heavy accumulations of baked-on fats, oils, greases and carbon deposits

Applications

- Ideal for use on ovens, grills and salamanders and diluted for cleaning of fryers
- Suitable for use on stainless steel materials commonly encountered in the kitchen

Hot Stuff™/MC

Oven and Grill Cleaner

Use instructions

DIRECTIONS FOR USE:

Premium, ready-to-use grill and oven cleaner. Formulated specifically for use on warm/hot cooking surfaces. Optimal cleaning occurs at temperatures as high as 350°F/175°C. For best results, operate at or near this temperature.

Instructions for cleaning grills:

1. Pre-scrape the grill to remove gross soils. Switch off the grill (or lower temperature, as needed) and lift the upper plates. (Be sure the venting system above the grill is switched on).
2. Apply 2-3 fl.ozs. (60-100ml) evenly to the cooking surfaces while still hot (350°F/175°C or lower). Clean using a no scratch pad and holder. Do not scrub with an abrasive pad.
3. When all surfaces have been cleaned, flush with fresh lukewarm water (never use cold water) until the grill plate has cooled sufficiently to remain wet.
4. Wipe all surfaces with a damp grill cloth and allow to air dry. Never place the bottle or the dip tray onto a hot grill surface.

Instructions for cleaning toasters:

1. Switch off the toaster and apply product with a no-scratch pad
2. Follow the cleaning instructions of the toaster manufacturer. Good ventilation is recommended.

Technical data	Hot Stuff™/MC Oven and Grill Cleaner
