

The modular Novus Tetra Support System (TSS) of monitor arms and mounts provide unlimited options for custom configurations. Whether in the office or control center, TSS provides secure, flexible solutions for any workstation.

The TSS support carriage has a range of 4.13" and holds one flat screen monitor weighing up to 33 lbs. Made of high-quality aluminum and metal, it supports heavier monitors securely.

All TSS arms and mounts are equipped with the Quick Release monitor mount. Quick Release allows you to snap your monitor into place and slide a spring-powered lever to release it easily. The ball joint allows the monitor to be tilted smoothly to the ideal viewing position. Cable routing clips are included to ensure an organized appearance.

For use with a TSS column.

Item Number	Base Option	Capacity	Range
963+0119+000	Novus Quick Release	33 lbs	4.13"

## FEATURES
