

Figure 6. Localization of presynaptic NMDA receptors in the hippocampus. *A*, Low-magnification image of the hippocampus showing the area shown at higher magnification in *B*. *B*, High-magnification image showing a dendrite with several presynaptic NMDAR clusters (white arrows). *C*, Higher magnification of a dendrite with NMDAR clusters (white arrow). *D*, Dendrite with NMDAR clusters (white arrow). Scale bar, 5 μ m.
