

## KNOWLEDGE

### QUESTION

1. A company has a total of 100 employees. If 25% of the employees are men, how many women are there?

### ANSWER

75. Since 25% of the employees are men, 75% of the employees are women. 75% of 100 is 75.

### QUESTION

2. A company has a total of 100 employees. If 25% of the employees are men, how many women are there?

### ANSWER

75. Since 25% of the employees are men, 75% of the employees are women. 75% of 100 is 75.
