

The graph shows a downward trend in the data. The vertical axis represents the dependent variable, and the horizontal axis represents the independent variable. The data points are connected by a line, showing a clear negative correlation.

Figure 1: A line graph showing a downward trend in the data.

## KINEMATION

The diagrams illustrate the kinematics of a hand holding a hammer. The top diagram shows the hand in a neutral position, and the bottom diagram shows the hand rotated, demonstrating the change in orientation.

Figure 2: Kinematics of a hand holding a hammer.
