

Figure 1. Behavioral and electrophysiological responses to a novel stimulus. *A*, Behavioral responses to a novel stimulus (red bar) and a familiar stimulus (black bar). *B*, Electrophysiological responses to a novel stimulus (red bar) and a familiar stimulus (black bar). *C*, Time course of the behavioral response to a novel stimulus (red bar). *D*, Time course of the electrophysiological response to a novel stimulus (red bar). *E*, Time course of the behavioral response to a novel stimulus (red bar). *F*, Time course of the electrophysiological response to a novel stimulus (red bar). *G*, Time course of the behavioral response to a novel stimulus (red bar). *H*, Time course of the electrophysiological response to a novel stimulus (red bar). *I*, Time course of the behavioral response to a novel stimulus (red bar). *J*, Time course of the electrophysiological response to a novel stimulus (red bar).
