Description

Twister is an innovative method for daily floor maintenance that cleans and polishes unprotected floors by using floor pads prepared with billions of microscopic diamonds. The High Traffic (HT) System is specially developed for large areas like airports, shopping malls, supermarkets and areas with greater than 5,000 visitors a day. The diamond impregnated side of the pad is colored and also works as a wear indicator.

Twister HT significantly reduces the need for periodic floor maintenance, while also lowering the overall cost. The Twister HT Pink pad is used in sequence as the last step in the restoration process of the High Traffic System that transforms a floor to a clean, shiny and polished surface. The Twister HT Pink pad can be used for an extra demand of high gloss for daily cleaning and has a lifespan of approx. 450,000 – 650,000 ft² under optimal circumstances.

Twister Diamond Floor Pads - High Traffic Pink

Instructions for use

- Select the appropriate Twister pad
- Mount side labelled "Machine Side" facing the machine and the colored side facing the floor
- Use water/cleaning solution with Twister
- Clean and polish
- After use, rinse the Twister pad
- When the color is gone, change the pad

Please note: The diamond impregnated side of the pad is colored and works as a wear indicator
