

Scotchgard™ Spray Cleaner Concentrate

Technical Data

March 2003

Description:

Scotchgard Spray Cleaner is an effective surface cleaner designed to be used with the 3M™ Carpet Bonnet Pad in a bonnet-cleaning type process.

Scotchgard Spray Cleaner is formulated for use with Scotchgard™ Carpet Protector and is an important part of the 3M carpet care system.

Special Features:

- Excellent surface cleaner for interim carpet maintenance
- Easy-to-use cleaning process
- Fast drying cleaning process minimizes carpet down time
- Meets ASCR guidelines for professional cleaning of nylon stain resistant carpets
- Extends the time between restorative extraction cleanings
- Low foaming
- Effectively removes stains that wick to the carpet surface after extraction cleaning

Applications:

- Commercial grade carpets.
- Low profile loop or cut-pile construction
- Traffic lanes

Packaging:

4-1 gallon bottles per case

General Use Directions:

Note:

Test the spray cleaner in an inconspicuous area to make sure the carpet is colorfast. Apply ready-to-use solution to a small area. After several minutes, blot the carpet with a clean white cloth or paper towel. If color from the carpet transfers to the cloth or towel, discontinue use.

1. Mix 1 part concentrate with 20 parts warm water (6 ounces per gallon).
2. Vacuum the carpet area thoroughly.
3. Use a 3M™ All Purpose Sprayer (Model AP-1) or a bulk pressurized sprayer to apply the spray cleaner.
4. Apply the ready-to-use solution at a rate of 200-300 ft² per gallon.
5. Allow 1-2 minutes dwell time for the cleaner to penetrate the fiber.
6. Clean using a 175 rpm floor machine with a 3M Carpet Bonnet Pad or carpet brush.
7. Do not over-wet the carpet bonnet pad by soaking it, however spray the pad with spray cleaner before starting to reduce the drag of the machine on the carpet.
8. Bonnet the area until the light foam generated is worked into the carpet.
9. When the pad becomes heavily soiled, turn the pad over and continue.
10. Change to a clean pad when necessary.
11. Vacuum the area when the carpet is completely dry.

Product Specifications:

(Typical Values)

Concentrate:

1. pH: 9.1
2. Flashpoint: >200°F
3. Solubility in water: Complete
4. Specific Gravity: 1.0
5. Viscosity: ≤100 cps
6. Appearance: Clear liquid
7. Fragrance: Floral

Precaution Summary:

Concentrate:

Eye Contact: Moderate eye irritant

Skin Contact: Moderate skin irritant

Inhalation: May cause upper respiratory tract irritation

Note:

Refer to product Material Safety Data Sheets (MSDS: 09-2555-2) for specific health hazard, first aid and precautionary information.
