D30®  
.....

## LEATHER HAND PROTECTION

M-Pact® Leather work gloves stand tall against rough cut wood, concrete and cold hard steel on the jobsite. The M-Pact® is constructed with DuraHide™ leather to provide extreme abrasion resistance and structural integrity when you're in full swing. Impact-absorbing Thermoplastic Rubber (TPR) protects the back of the hand from your knuckles to your fingertips. For comfort, D30® palm padding reacts on impact to absorb and dissipate energy through the hand and reduce fatigue as the day goes on.

### IMPACT PROTECTION

Patented Impact Guard™ and molded Thermoplastic Rubber (TPR) absorb blunt force impact to the hand and fingers.

### LEATHER

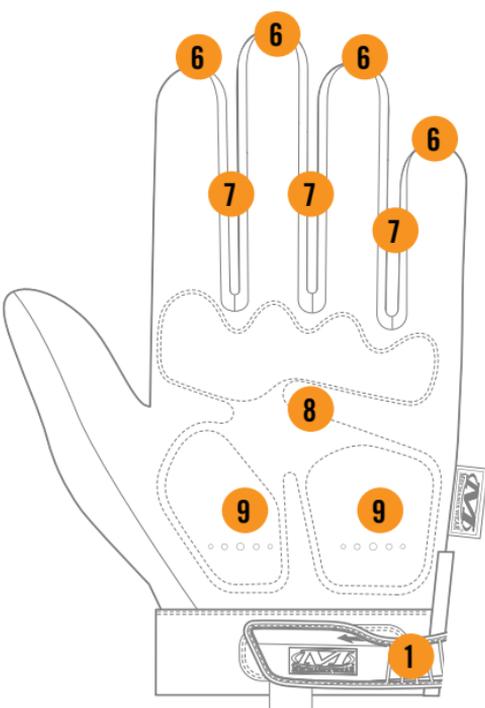

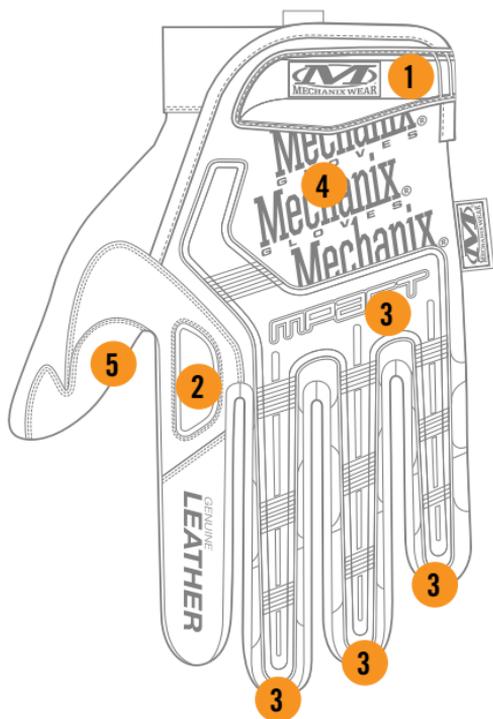

DuraHide™ leather protects your palm with extreme abrasion resistance.

## FEATURES

1. Flexible Thermoplastic Rubber (TPR) closure provides a secure fit to the wrist.
2. Patented Impact Guard™ protects the first knuckle with EVA foam padding.
3. Thermoplastic Rubber (TPR) knuckle guard and full-length fingertip protection reduce the risk of impact and pinching injuries.
4. Form-fitting TrekDry® material keeps your hands cool and comfortable while you work.
5. DuraHide™ leather thumb reinforcement.
6. Pinched fingertip construction improves fingertip strength.
7. DuraHide™ leather fourchettes improve finger durability.
8. DuraHide™ leather palm provides extreme abrasion resistance.
9. D30® palm padding absorbs and dissipates high-impact energy through the palm.
