

Self-Adhesive Cable Clips

Adjustable Grip | Extra-Strong Hold

Route USB cables and power cords neatly inside and along the exterior of any wall-mounted workstation or storage cabinet with our self-adhesive cable clips. Backed with extra-strong 3M™ acrylic foam tape for reliable adhesion, the clips enable an efficient configuration of connected EHR/IT gear, tightly securing and organizing cables to keep them out of the way.

Features:

- Set of 12 clips
- Insertable EVA foam blocks for creating a custom adjustable fit
- Fits wires up to 11 millimeters in diameter
- Easy to arrange and secure without tools
- No sticky residue when clips are detached from surface

Secure computer, peripheral, and power cables without hooks or hardware

Particularly useful when installing EHR/IT devices and other computer components inside our wall-mounted workstations and storage cabinets, these self-adhesive cable clips can accommodate different types of cables up to 11 mm in diameter, ranging from thin USB cables to thick power-strip cords.

Each cable clip has an upper and lower plate that are interlocked with hooks. Inserting one or two EVA foam blocks further secures cables as necessary, creating a custom fit. When clips are used in multiples, the snug design creates a tightened line to prevent dangling and sagging. Cables won't become loose unless the plates are separated by hand.
