## Floor Science®

### Easy Apply High Gloss Floor Finish

Floor Science® Easy Apply High Gloss Floor Finish is an easy-to-apply floor finish/sealer that is formulated to work with any maintenance method and equipment. Use the complete Floor Science system to create and maintain a consistently brilliant shine on floors with minimal time and effort.

#### Features & Benefits

- Simplifies floor care program
- Synthetic polymeric floor finish creates initial high-gloss without buffing or burnishing
- Minimizes the tendency to show scuffs and black heel marks. Features outstanding leveling and adhesion properties
- Solids Content 20%
- Meets ASTM D-2047 slip resistance requirements
- One gallon covers up to 2,500 sq. ft. (232 sq. m)

#### Applications

- The “built-in” sealer means the finish acts as its own sealer—no separate product required
- Works on nearly all types of floors and responds beautifully to conventional, high-speed or UHS equipment and maintenance procedures
- Works with non-buff, dry buff and spray buff programs. Responds to 175 through 2000 equipment

### Use instructions

Blockade areas to be stripped or finished. Floors will be very slippery until dry.

1. Strip floor, using Floor Science® Heavy Duty Floor Stripper per the label instructions.
2. Apply 2-3 uniform coats using a clean mop
3. Allow 40 minutes drying time between coats.

### RECOAT

1. Dust mop or sweep
2. Clean floor with a mop or an automatic scrubber using the recommended Floor Science® Neutral Floor Cleaner according to label directions
3. Blockade area and apply 1-2 uniform coats of finish using a clean mop.

### MAINTENANCE

1. Dust mop or sweep.
2. Clean the floor with a mop or an automatic scrubber using the recommended Floor Science® cleaner according to label directions
3. To enhance appearance, use any of the following methods: Spray buff with Floor Science® Cleaner & Restorer Spray Buff, a red pad and 175-1500 rpm equipment. Dry buff using a medium to aggressive pad and 1000-1500 rpm equipment. Ultra High Speed burnish using a medium to aggressive pad and 2000 rpm equipment

### REMOVAL

1. Remove using Floor Science® Heavy Duty Floor Stripper according to label directions
